IMPORTANT SAFETY RECALL
See enclosed VIN list

Subject: FCCC MT Chassis Brake Pedal Clevis Pins

This notice is sent to you in accordance with the requirements of the *National Traffic and Motor Vehicle Safety Act*.

Daimler Trucks North America LLC (DTNA), on behalf of its wholly owned subsidiary Freightliner Custom Chassis Corporation, has decided that a defect that relates to motor vehicle safety exists on specific Model Year 2011-2019 Freightliner Custom Chassis MT45 and MT55 step vans, manufactured January 12, 2011, through January 3, 2019.

The clearance between the brake pedal clevis pin clip and the throttle pedal mounting hardware does not meet minimum clearance requirements. This could result in detachment of the brake pedal clevis pin clip. As the clevis pin works out, there will initially be loss of brake lights, and eventually the brake pedal may become detached. Both the loss of brake lights and a detached brake pedal increase the risk of a crash.

The throttle pedal assembly will be replaced with a new design to create additional clearance between the brake pedal clevis pin and the throttle pedal mounting hardware.

Please contact an authorized Daimler Trucks North America dealer to arrange to have the Recall performed and to ensure that parts are available at the dealership. To locate an authorized dealer, search online at www.Daimler-TrucksNorthAmerica.com/ContactUs/LocateaDealer. The Recall will take approximately one hour and will be performed at no charge to you.
