Dear «Dealer_name»,

Keystone RV Company has decided that a defect which relates to motor vehicle safety exists in certain model 2018-2020 Keystone Fuzion Fifth Wheels. As a result, Keystone RV is conducting a safety recall.

***Reason for
this recall***

It has been decided that the vehicles in the recall population may have wiring to the power center that can be pinched between the floor framing and the chassis I-beam. Under certain conditions if the power center wires short to ground it can lead to an increased risk of fire and/or damage to personal property. The remedy is to inspect the wiring and repair as needed. The vehicles included in the recall are:

2018-2020 Fuzion Fifth Wheel, Model 429

Serial Number Range: 2018 JF810694 - JF811159
2019 KF810025 - KF81099
2020 LF810012 - LF810019

Our records indicate unit(s) sold or in your present lot inventory fall within this range, which will require immediate preventative action. **Important:** If some of the units are still in your inventory, Federal Law requires you to complete the recall service on those units before retail delivery. The unit VIN(s) our records indicate are presently in your inventory or have been sold are as follows:

«VIN1» «VIN2» «VIN3» «VIN4»
«VIN5» «VIN6» «VIN7» «VIN8»
«VIN9» «VIN10» «VIN11» «VIN12»
«VIN13» «VIN14» «VIN15» «VIN16»

-- Serial numbers with '*' have been retail sold --

Claims for the units which have been serviced must be submitted. Claims submitted will be used by Keystone to record recall service completions and provide dealer payments. Enclosed is a copy of the Safety Advisory #19-351, which details how to remedy the situation and the proper reimbursement procedures.

We apologize for any inconvenience this situation may cause and greatly appreciate your cooperation. Should you have any questions or concerns regarding this correspondence or the enclosed Safety Advisory, please feel free to contact us.

Sincerely,

KEYSTONE RV COMPANY

Rick Deisler
