Dear Kristin:

This letter is a response to the questions raised during recall review on October 24, 2019 regarding the front passenger seat track rivet that may fail and cause the spindle bracket to separate on certain 2019 Audi A8 vehicles equipped with rear relaxation seats, as described in NHTSA Recall Notice No. 19V-415 respectively.

Q: Did Adient Components Ltd. & Co. KG sell this equipment to more than one manufacturer, including but not limited to other component manufacturers or vehicle manufacturers? Does the potential defect present itself in vehicles produced by the other vehicle manufactures?

A: No, this equipment was only sold to AUDI for the AUDI A8 vehicle with rear relaxation seats.

The supply chain for this equipment is from SC ADIENT SRL, Jimbolia (Romania) via FAURECIA Neuenstadt (Germany) to AUDI Neckarsulm (Germany)

Sincerely,

Amtsgericht Kaiserslautern,  
HRA 30538
