

New Safety Recall Advanced Communication – V76

FCA US LLC (FCA US) has announced a safety recall on certain 2019 Model Year (DJ) RAM 2500 Pickup, (D2) RAM 3500 Pickup, (DD) RAM 3500 Cab Chassis, (DP) RAM 4500/5500 Cab Chassis trucks equipped with a 6.7L Cummins diesel engine.

REASON FOR THIS SAFETY RECALL

Some of the above trucks equipped with diesel engines, may have been manufactured with fuel lines with incorrectly formed end fittings that may not properly seal to other fuel system components. Fuel lines that do not properly seal may lead to a fuel leak in the engine compartment. A fuel leak in the engine compartment may lead to a vehicle fire, which may increase risk of injury to occupants and persons outside the vehicle, as well as property damage.

SERVICE ACTION

FCA US will conduct a voluntary safety recall to inspect the fuel lines and replace as necessary. The remedy for this condition is not currently available. Dealers will be notified of the launch of this safety recall by way of established communication methods. This recall is estimated to launch in 3rd Quarter of 2019.

We ask that you please take the time to ensure that your personnel are aware of this communication and are prepared to execute a customer friendly process for inquiries regarding involved vehicles.
