# IMPORTANT SAFETY RECALL

## Fuel Injector Lines

Dear [Name],

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

FCA has decided that a defect, which relates to motor vehicle safety, exists in certain [2019 Model Year (DJ) RAM 2500 Pickup, (D2) RAM 3500 Pickup, (DD) RAM 3500 Cab Chassis, (DP) RAM 4500/5500 Cab Chassis] trucks equipped with a 6.7L Cummins diesel engine.

It is extremely important to take steps now to repair your vehicle to ensure the safety of you and your passengers.

#### WHY DOES MY VEHICLE NEED REPAIRS?

The diesel engine on your truck <sup>[1]</sup> may have been manufactured with fuel lines with incorrectly formed end fittings that may not properly seal to other fuel system components which may lead to a fuel leak in the engine compartment. **A fuel leak in the engine compartment may lead to a vehicle fire, which may increase risk of injury to occupants and persons outside the vehicle, as well as property damage.**

#### HOW DO I RESOLVE THIS IMPORTANT SAFETY ISSUE?

FCA will repair your vehicle <sup>[2]</sup> free of charge (parts and labor). To do this, your dealer will inspect date codes on the fuel lines. Fuel lines will be replaced if the manufacturer date code falls within the suspect population. The estimated repair time is two hours. In addition, your dealer will require your vehicle for proper check-in, preparation, and check-out during your visit, which may require more time. Your time is important to us, so we recommend that you schedule a service appointment to minimize your inconvenience. Please bring this letter with you to your dealership.

#### TO SCHEDULE YOUR FREE REPAIR, CALL YOUR CHRYSLER, DODGE, JEEP OR RAM DEALER TODAY
