Dear Dealer:

This **Safety Recall Notice** is sent to you in accordance with the requirements of the United States National Traffic and Motor Vehicle Safety Act and The Canadian Motor Vehicle Safety Act and is important for your safety.

Thor Motor Coach (TMC) decided that a defect which relates to motor vehicle safety exists in certain models of the below listed motorhomes.

It has been discovered that on certain model year 2019/2020 Magnitude & Omni Motorhomes, the battery tray has inadequate welds onto the chassis frame. The inadequate welds have a potential of failing causing the battery tray to break free from the chassis and allowing the contents of the tray to discharge. This could potentially cause personal injury, property damage, a crash. In addition, if the battery posts or cables make contact with surrounding metal components, this could cause an electrical short, increasing the risk of a potential fire.

***The required action is to reinforce the weld area of battery tray.***
