Bulletin No.	19KWD
What's New Abstract	Safety Recall -- Interim Notification – Certain compression fittings on the brake treadle valve may have not received appropriate torque. A brake application air supply hose may separate from the brake treadle valve, diminishing vehicle braking capability, increasing the risk of a crash and injury.
Supplier	Dynacraft
Description	Recall 1BRecall19KWD: 19KWD T270/T370 Treadle Valve Loose Compression Fittings
Release Date	
Introduction	Kenworth Truck Company has determined that a defect, which relates to motor vehicle safety, exists in certain T270 and T370 chassis manufactured between July 19, 2019 and August 1, 2019.
Situation	123 chassis (118 U.S. and 5 Canada) T270 and T370 built from 07/19/2019 through 08/01/2019 equipped with air brakes. This bulletin will be updated after a repair path is available.
Resolution	
It is a violation of Federal law for a dealer to sell or lease new vehicles covered by this recall until the defect or noncompliance has been corrected.
