## Takata *DO NOT* Use Parts List

### **\*\*Takata *DO NOT* Use Part List\*\***

#### Multiple Models & Model Years

*Updated April 22, 2020: The most recent update will be highlighted with a **red box**.*

*Toyota previously advised dealers to discontinue the installation of the non-desiccated parts listed below for recall, customer pay repairs, and over-the-counter sales (if applicable).*

At the time of the original notice to discontinue use of these parts Toyota requested dealers to return these parts free of charge. If your dealership still has inventory of any of the part numbers listed below, please remove all pieces from your inventory.

To remove these parts from your inventory, Toyota previously communicated that you should create a manual R8 exception return for these parts, and then return them to your facing PDC for credit. However, **Toyota is now asking all dealers to return any parts listed below that still remain in dealer inventory by utilizing the Hazmat Part Return Program. Dealers will be issued a refund for all part returns. This part return program is outlined in *PANT Bulletin 2014-042*.**

#### Important Note:

In order to return the inflator, packages must **NOT** be opened/tampered with.

*Toyota does NOT accept any of these part numbers on warranty claims. In addition, Toyota recommends that you follow applicable laws prohibiting introduction of recalled parts into commerce, including over-the-counter sales.*

**Replacement *Non-Desiccated Takata* Airbag Inflators for E04/DSF**
