SAFETY (NONCOMPLIANCE) RECALL 19TA19 *(Remedy Notice)*

Certain 2020 Model Year Supra Vehicles Back Up Camera Display – Brightness and Contrast Settings

Model / Years	Production Period	Approximate Total Vehicles	Approximate Stop Sale Dealer Inventory
2020 Supra	Early March 2019 – Early September 2019	3,500	800

STOP! DO NOT SELL NEW VEHICLES IN DEALER INVENTORY.

Refer to Dealer Inventory Procedures section for more details.

On September 27, 2019 BMW filed a Noncompliance Information Report (NCIR) with the National Highway Traffic Safety Administration (NHTSA) informing the agency of its intent to conduct a voluntary Safety (Noncompliance) Recall on certain 2020 model year Supra vehicles.

Condition

If the rearview camera's brightness is set at/near its lowest setting, and the contrast is set at/near its highest setting then, under certain lighting conditions, at the "next backing event", the display may not meet a Federal requirement. In these settings/conditions, if a driver relied on the displayed image, this could increase the risk of a crash when reversing.

Remedy

Any authorized Toyota dealer will apply an updated rearview camera software that has a reduced brightness and contrast adjustment range **FREE OF CHARGE**.

Covered Vehicles

There are approximately 3,500 vehicles covered by this Safety (Noncompliance) Recall. Approximately 50 vehicles involved in this Safety (Noncompliance) Recall were distributed to Puerto Rico.

Owner Letter Mailing Date

Toyota will notify owners in early November 2019. **A sample of the owner letter has been included for your reference.**

Toyota makes significant effort to obtain current customer name and address information from each state through industry resources when mailing owner letters. In the event your dealership receives a notice for a vehicle that was sold prior to the Safety (Noncompliance) Recall announcement, it is the dealership's responsibility to forward the owner letter to the customer who purchased the vehicle.

Please note that only owners of the covered vehicles will be notified. If you are contacted by an owner who has not yet received a notification, please **verify eligibility by confirming through TIS prior to performing repairs**. Dealers should perform the repair as outlined in the Technical Instructions found on TIS.

Dealer Inventory Procedures

New Vehicles in Dealership Inventory

There are approximately 800 vehicles in new dealer inventory as of September 26, 2019.

Under Title 49, Section 30112 of the United States Code, a dealer cannot sell, offer for sale, or introduce or deliver for introduction in interstate commerce a new motor vehicle when it is aware that the vehicle does not comply with an applicable Federal Motor Vehicle Safety Standard or contains a defect related to motor vehicle safety. Further, 49 Code of Federal Regulations §577.13 requires us to provide the following advisory: It is a violation of Federal law for a dealer to deliver a new motor vehicle or any new or used item of motor vehicle equipment (including a tire) covered by this notification under a sale or lease until the defect or noncompliance is remedied.

Toyota reimburses dealers for flooring costs associated with new vehicles held in dealership inventory until the recall remedy becomes available. Toyota provides these flooring reimbursements at 60 day intervals. Toyota reserves the right to withhold or charge-back any flooring reimbursement funds that may have been paid to the dealer if it determines that a new vehicle subject to a safety recall was sold without first being remedied.

Vehicle Safety Recall completion should always be verified through TIS. We request your assistance to ensure involved vehicles are identified and not delivered prior to performing the remedy.

NOTE:

- ***New vehicles in dealer inventory subject to a Safety Recall must be remedied before delivery into commerce under a sale or lease. Dealer-to-dealer trades as well as vehicle sales between dealers should not be made until a vehicle is remedied.***
- Dealers can identify if any of their new and used inventory has any open campaigns in the Vehicle Inventory Summary available in Dealer Daily (<https://dealerdaily.toyota.com/>). The Vehicle Inventory Summary may take up to 4 hours to populate information for newly launched campaigns.

Inspection Reminder Mirror Hang Tags for Covered Vehicles in New Dealer Stock

To easily recognize vehicles involved in this Safety (Noncompliance) Recall, each dealership should utilize Inspection Reminder Hang Tags. Inside the vehicle's glove box are stickers containing the VIN. Apply one of these stickers to the hang tag and install the hang tag in the vehicle. A sample copy of the Inspection Reminder Hang Tag has been included for your reference.

NOTE: Dealerships can order hang tags from the Material Distribution Center (MDC).

Part Number	Description	Quantity
00411-140003	Inspection Mirror Hang Tag	25 Per Pack

Pre-Owned Vehicles in Dealer Inventory

To ensure customer satisfaction, Toyota requests that dealers complete this Safety Recall on any used vehicles currently in dealer inventory that are covered by this Safety Recall prior to customer delivery. However, if the campaign cannot be completed (for example, due to remedy parts availability), delivery of a covered vehicle is acceptable if disclosed to the customer that the vehicle is involved in a Safety Recall.

Toyota expects dealers to use the attached Customer Contact and Vehicle Disclosure Form to obtain vehicle buyer information. Dealers are expected to provide a copy of the completed form, along with the most current FAQ, to the vehicle buyer. Toyota and the dealer may use this information to contact the customer when the remedy becomes available.

Keep the completed form on file at the dealership and send a copy to quality_compliance@toyota.com. In the subject line of the email state "Disclosure Form 19TA01" and include the VIN.

NOTE: Dealers can identify if any of their new and used inventory has any open campaigns in the Vehicle Inventory Summary available in Dealer Daily (<https://dealerdaily.toyota.com/>). The Vehicle Inventory Summary may take up to 4 hours to populate information for newly launched campaigns.

Toyota Certified Used Vehicle (TCUV)

The TCUV policy prohibits the certification of any vehicle with an outstanding Safety Recall, Special Service Campaign, or Limited Service Campaign. Thus, no affected units are to be designated, sold, or delivered as a TCUV until all applicable Safety Recalls, Special Service Campaigns, and Limited Service Campaigns have been completed on that vehicle.

Toyota Rent-A-Car (TRAC) & Service Loaners

Toyota requests that dealers remove all TRAC and Service Loaner vehicles from service that are covered by a Safety Recall unless the defect has been remedied.

Customer Handling and Remedy Procedures

Customer Contacts

Customers who receive the owner letter may contact your dealership with questions regarding the letter and/or the Safety (Noncompliance) Recall. Please welcome them to your dealership and answer any questions that they may have. A Q&A is provided to assure a consistent message is communicated.

Customers with additional questions or concerns are asked to please contact the Toyota Customer Experience Center (1-888-270-9371) - Monday through Friday, 7:00 am to 7:00 pm, Saturday 7:00 am to 4:30 pm Central Time.

Media Contacts

It is imperative that all media contacts (local and national) receive a consistent message. In this regard, all media contacts must be directed to Tania Saldana (859) 815-9968 in Toyota Corporate Communications. Please do not provide this number to customers. Please provide this contact only to media.

Technician Training Requirements

The repair quality of covered vehicles is extremely important to Toyota. All dealership technicians performing this repair are required to successfully complete the most current version of the E-Learning course "Safety Recall and Service Campaign Essentials". To ensure that all vehicles have the repair performed correctly; technicians performing this repair are required to currently hold at least one of the following certification levels:

- Certified Technician any Specialty
- Expert Technician any Specialty
- Master Technician
- Master Diagnostic Technician.

Always check which technicians can perform the repair by logging on to <https://www.uotdealerreports.com>. It is the dealership's responsibility to select technicians with the above certification level or greater to perform this repair. Carefully review your resources, the technician skill level, and ability before assigning technicians to this repair. It is important to consider technician days off and vacation schedules to ensure there are properly trained technicians available to perform this repair at all times.

Remedy Procedures

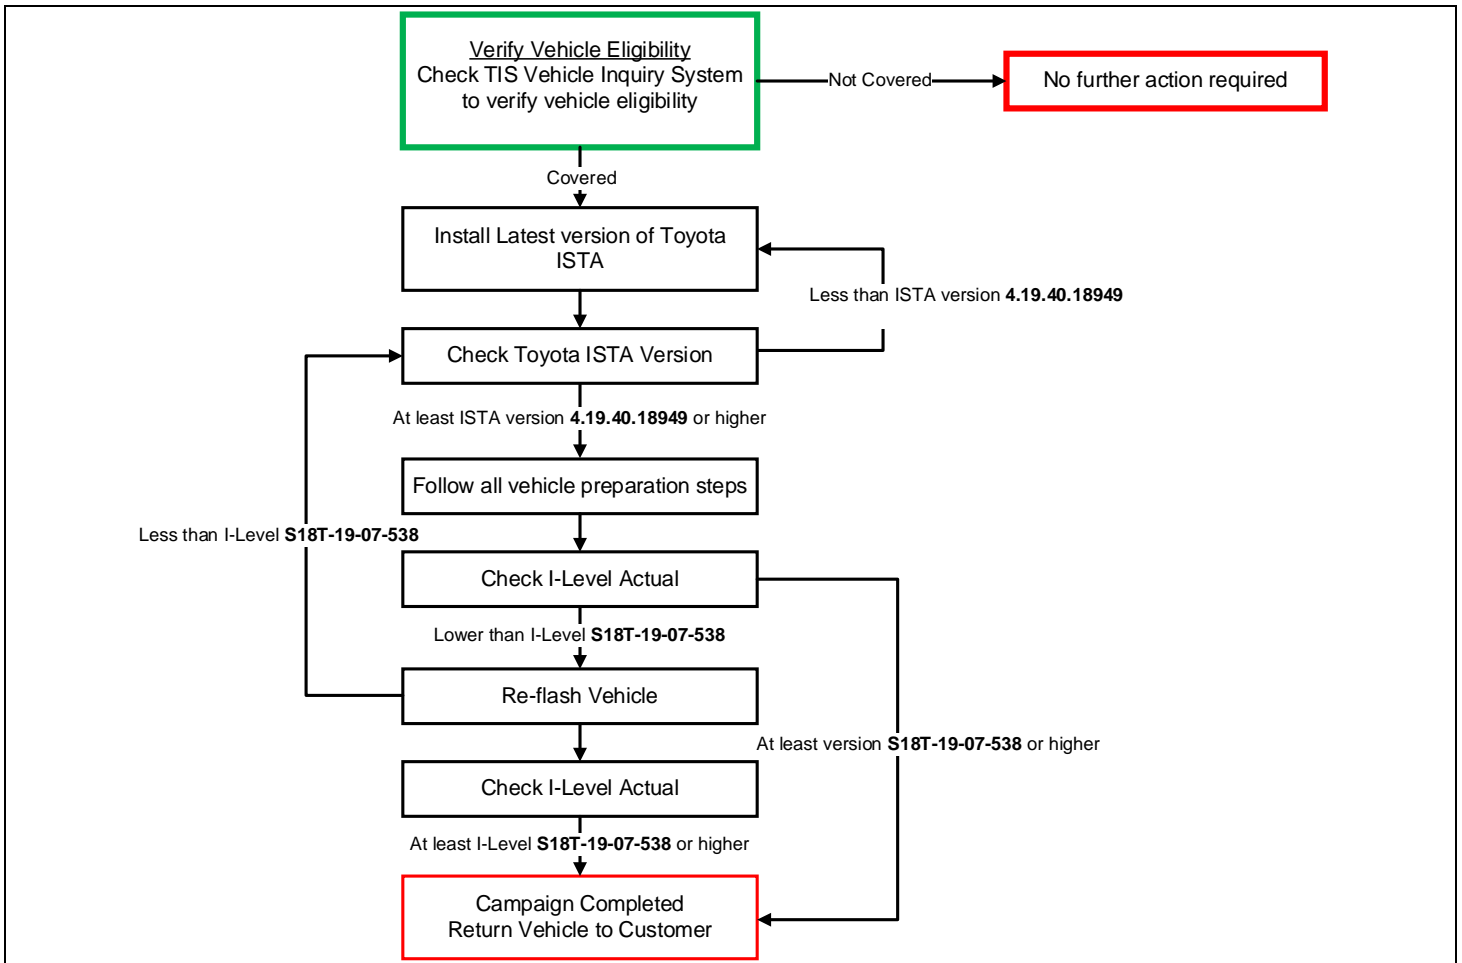

Refer to TIS for Technical Instructions on repair. Conduct all non-completed Safety Recalls and Service Campaigns on the vehicle during the time of appointment.

Repair Quality Confirmation

The repair quality of covered vehicles is extremely important to Toyota. To help ensure that all vehicles have the repair performed correctly, please designate at least one associate (someone other than the individual who performed the repair) to verify the repair quality of every vehicle prior to customer delivery.

Warranty Reimbursement Procedures

Warranty Reimbursement Procedure

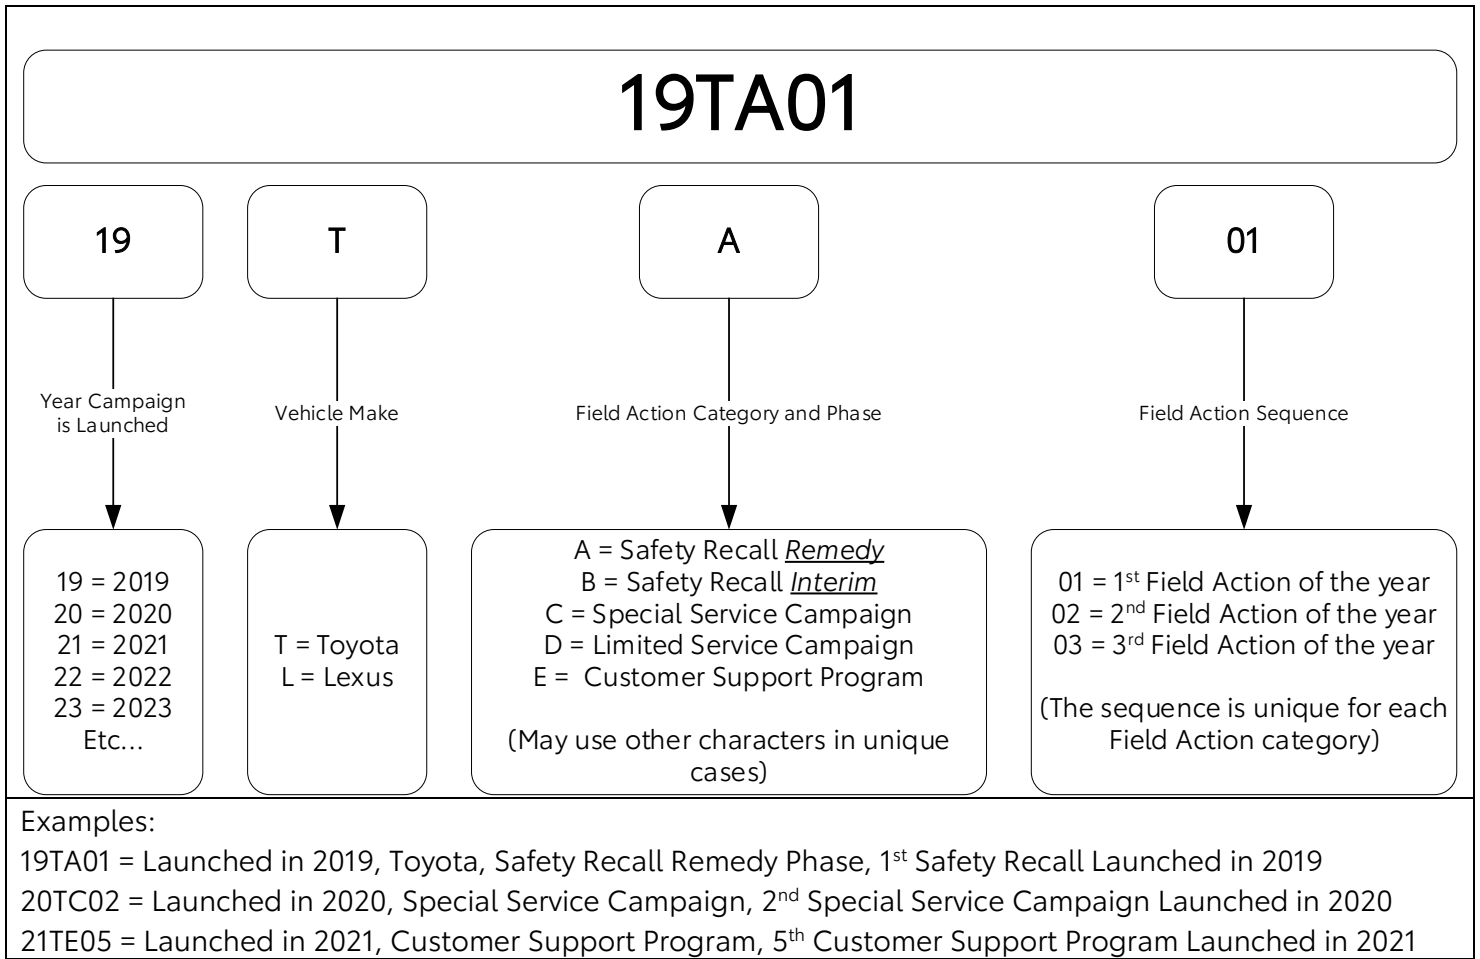

Op Code	Description	Flat Rate Hours
A19001	Apply software update	1.1

- The flat rate times include 0.1 hours for administrative cost per unit for the dealership.
- In the rare case the vehicle’s I-level meets or exceeds S18T-19-07-538 already (no software update required), file the OpCode (A19001) anyway.

Claim Filing Accuracy and Correction Requests

It is the dealer’s responsibility to file claims correctly for this Safety (Noncompliance) Recall. This claim filing information is used by Toyota for various government reporting activities; therefore, claim filing accuracy is crucial. If it has been identified that a claim has been filed using an incorrect Op Code or a claim has been filed for an incorrect VIN, refer to Warranty Procedure Bulletin [PRO17-03](#) to correct the claim.

Campaign Designation / Phase Decoder

Please review this entire package with your Service and Parts staff to familiarize them with the proper step-by-step procedures required to implement this Safety (Noncompliance) Recall.

Thank you for your cooperation.

SAFETY (NONCOMPLIANCE) RECALL 19TA19 *(Remedy Notice)*

Certain 2020 Model Year Supra Vehicles
Back Up Camera Display – Brightness and Contrast Settings

Frequently Asked Questions

Original Publication Date: September 27, 2019

◀ IMPORTANT UPDATE ▶

DATE	TOPIC
November 8, 2019	The condition description in Q1 has been updated.

*The most recent update will be highlighted with a **red box**.*

Q1: *What is the condition?*

A1: If the rearview camera's brightness is set at/near its lowest setting, and the contrast is set at/near its highest setting then, under certain lighting conditions, at the "next backing event", the display may not meet a Federal requirement. In these settings/conditions, if a driver relied on the displayed image, this could increase the risk of a crash when reversing.

Q1a: *What do federal regulations require?*

A1a: Federal regulations require that a specified image of the area behind the vehicle be displayed each time the vehicle begins a backing event. The back-up camera system of the Toyota Supra displays this image on the control display located on the dashboard in the vehicle interior.

Q2: *Are there any warnings that this condition exists?*

A2: This condition may only occur if the driver adjusts the image shown by the back-up camera system at/near the lowest brightness setting and at/near the highest contrast setting. Toyota recommends that drivers adjust the brightness and contrast settings to enable them to clearly see the back-up camera image that is displayed when the vehicle is in reverse.

Q3: *What is Toyota going to do?*

A3: Toyota will send an owner notification by first class mail by early November 2019 advising owners to make an appointment with their authorized Toyota dealer to apply an updated rearview camera software that has a reduced brightness and contrast adjustment range **FREE OF CHARGE**.

Q4: *Which and how many vehicles are covered by this Safety (Noncompliance) Recall?*

A4: There are approximately 3,500 vehicles covered by this Safety (Noncompliance) Recall.

Model Name	Model Year	Production Period
Supra	2020	Early March 2019 – Early September 2019

Q4a: *Are there any other Lexus/Toyota/Scion vehicles covered by this Safety (Noncompliance) Recall in the U.S.?*

A4a: No, there are no other Lexus/Toyota/Scion vehicles covered by this Safety (Noncompliance) Recall.

Q5: *How long will the repair take?*

A5: The repair takes approximately one hour. However, depending upon the dealer's work schedule, it may be necessary to make the vehicle available for a longer period of time.

Q6: *How does Toyota obtain my mailing information?*

A6: Toyota uses an industry provider who works with each state's Department of Motor Vehicles (DMV) to receive registration or title information, based upon the DMV records. Please make sure your registration or title information is correct.

Q7: *What if I have additional questions or concerns?*

A7: If you have additional questions or concerns, please contact the Toyota Customer Experience Center at 1-888-270-9371 Monday through Friday, 7:00 am to 7:00 pm, Saturday 7:00 am to 4:30 pm Central Time.

URGENT SAFETY RECALL

This is an important Safety Recall. The remedy will be performed **FREE OF CHARGE** to you.

IMPORTANT SAFETY RECALL (*Remedy Notice*)

Certain 2020 Model Year Supra Vehicles Backup Camera Display – Brightness and Contrast Settings NHTSA Recall No. 19V-684

Dear (customer's First/Last name)

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act. BMW, who makes the current generation Supra for Toyota, has decided that certain 2020 model year Supra vehicles fail to conform to Federal Motor Vehicle Safety Standard (FMVSS) Number 111 (Rear Visibility).

You received this notice because our records, which are based primarily on state registration and title data, indicate that you are the current owner.

What is the condition?

If the rearview camera's brightness is set at/near its lowest setting, and the contrast is set at/near its highest setting then, under certain lighting conditions, at the "next backing event", the display may not meet a Federal requirement. In these settings/conditions, if a driver relied on the displayed image, this could increase the risk of a crash when reversing.

What should you do?

Please contact any authorized Toyota dealer to schedule an appointment to have the remedy performed as soon as possible.

Your local Toyota dealer will be more than happy to answer any of your questions.

- ✓ To find a dealer near you, visit www.toyota.com/dealers.
- ✓ For more information on this and other Safety Recalls, including Frequently Asked Questions, visit www.toyota.com/recall. Input your full 17-digit Vehicle Identification Number (VIN) noted above to review information specific to your vehicle.
- ✓ If you require further assistance, you may contact the Toyota Customer Experience Center at 1-888-270-9371 Monday through Friday, 7:00 am to 7:00 pm, Saturday 7:00 am to 4:30 pm Central Time.

What will Toyota do?

Any authorized Toyota dealer will apply an updated rearview camera software that has a reduced brightness and contrast adjustment range **FREE OF CHARGE** to you.

This is an important Safety Recall

The remedy will take approximately 1 hour. However, depending on the dealer's work schedule, it may be necessary to make your vehicle available for a longer period of time.

This condition may only occur if the driver adjusts the image shown by the back-up camera system at/near the lowest brightness setting and at/near the highest contrast setting. Toyota recommends that drivers adjust the brightness and contrast settings to enable them to clearly see the back-up camera image that is displayed when the vehicle is in reverse.

What if you are not the owner or operator of this vehicle?

If you are a vehicle lessor, Federal Law requires that any vehicle lessor receiving this recall notice must forward a copy of this notice to the lessee within ten days.

If you know the current owner or operator, please forward this letter to them.

If you would like to update your vehicle ownership or contact information, you may do so by registering at www.toyota.com/owners. You will need your full 17-digit Vehicle Identification Number (VIN) to input the new information.

If you believe that the dealer or Toyota has failed or is unable to remedy the defect within a reasonable time or without charge, you may submit a complaint to the Administrator, National Highway Traffic Safety Administration, 1200 New Jersey Avenue S.E., Washington, D.C. 20590, or call the toll free Vehicle Safety Hot Line at 1-888-327-4236 (TTY: 1-800-424-9153), or go to <http://www.safercar.gov>.

We have sent this notice in the interest of your continued satisfaction with our products. We sincerely regret any inconvenience this condition may have caused you.

Thank you for driving a Toyota.

Sincerely,

Toyota Motor Sales, USA
