

Recall-Stop Sale K 1600 and S 1000 RR

As you are all aware, BMW Motorrad has announced several technical campaigns over the last several weeks. Unfortunately, we must advise you that the K 1600 (K48/K61) stop sale will now become a recall and in addition we must announce a stop sale for the S 1000 RR (K67, produced up to 8/27/2019). More technical details will be communicated shortly; however, a delivery stop now appears in your systems.
