Dear Mercedes-Benz Metris Owner or Lessee:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Mercedes-Benz AG ("MBAG") the manufacturer of Mercedes-Benz vans, has decided that a defect which relates to motor vehicle safety exists in certain Model Year 2016 - 2020 Mercedes-Benz Metris vehicles. Our records indicate that your vehicle is included in the affected population of vehicles.

What is the CONCERN?

MBAG determined that with an integrated backup battery located beneath the front passenger's seat box were produced without a seat base cover. Without a seat base cover, the opening in which the integrated backup battery is located can be exposed when the seat is moved forward. An object containing conductive material, such as metal, could be unintentionally dropped into the opening and make contact with the poles on the battery. Were such contact to occur, a short circuit could result, increasing the risk of a fire.

What will your DEALER DO?

An authorized Mercedes-Benz dealer will retrofit and install the seat base cover in the potentially affected vehicles. **This service will be provided free of charge.** We are dedicated to always delivering the best customer experience, and respect for your time is a top priority. While the minimum repair time can be up to **approximately 10 minutes**, your dealer can provide you with a better estimate of the overall time for this service visit. As a matter of normal service process, an authorized Mercedes-Benz dealer will also check for other repair measures which might be applicable to your vehicle and this may increase the required working time.

What should YOU DO?
