Subject: Propane Supply Hose may Melt

Dear Mr. Carolus:

This letter serves to acknowledge Keystone RV Company's notification to the National Highway Traffic Safety Administration (NHTSA) of a safety recall which will be conducted pursuant to Federal law for the product(s) listed below. Please review the following information to ensure that it conforms to your records as this information is being made available to the public. If the information does not agree with your records, please contact us immediately to discuss your concerns.

Makes/Models/Model Years:

DUTCHMEN/ATLAS/2020

Mfr's Report Date: October 18, 2019

NHTSA Campaign Number: 19V-746

Components:

EQUIPMENT:RECREATIONAL VEHICLE:LPG LINES AND FITTINGS

Potential Number of Units Affected: 5

Problem Description:

Keystone RV Company (Keystone) is recalling certain 2020 Dutchmen Atlas 3382BH trailers. The trailers may have a non-metallic propane supply hose installed inside the burner box of the cooktop, instead of a copper supply hose.

Consequence:

Under certain conditions, the heat from the range burner may cause the hose to melt and leak propane, increasing the risk of a fire or an injury.

Remedy:

Keystone will notify owners, and dealers will remove the non-metallic propane gas line and attach it to a copper propane gas line, free of charge. The recall is expected to begin November 15, 2019. Owners may contact Keystone customer service at 1-866-425-4369. Keystone's number for this recall is 19-363.

Notes:

Owners may also contact the National Highway Traffic Safety Administration Vehicle Safety Hotline at 1-888-327-4236 (TTY 1-800-424-9153), or go to www.safercar.gov.

We have received Keystone's proposed owner notification letter and it is currently under review. You will be notified of any changes or concerns once our review is complete.

Please be reminded of the following requirements:

Copies of all notices, bulletins, dealer notifications, and other communications that relate to this recall, including a copy of the final owner notification letter and any subsequent owner follow-up notification letter(s), are required to be submitted to this office no later than 5 days after they are originally sent (if they are sent to more than one manufacturer, distributor, dealer, or purchaser/owner).

Please be reminded that under 49 U.S.C. § 30112(a)(3), it is illegal for a manufacturer, to sell, offer for sale, import, or introduce or deliver into interstate commerce, a motor vehicle or item of motor vehicle equipment that contains a safety defect once the manufacturer has notified NHTSA about that safety defect. This prohibition does not apply once the motor vehicle or motor vehicle equipment has been remedied according to the manufacturer's instructions.

As stated in Part 573.7, submission of the first of six consecutive quarterly status reports is required within one month after the close of the calendar quarter in which notification to purchasers occurs. Therefore, the first quarterly report will be due on, or before, 30 days after the close of the calendar quarter.

Your contact for this recall will be Kristin Lepper who may be reached by phone at 202-366-5227, or by email at kristin.lepper@dot.gov. We look forward to working with you.

Sincerely,

Joshua Neff
