# IMPORTANT SAFETY RECALL

February 2020

This notice applies to your vehicle, **VIN:** \_\_\_\_\_

Dear General Motors Customer:

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

General Motors has decided that a defect, which relates to motor vehicle safety, exists in certain 2019 – 2020 model year Buick Regal vehicles. As a result, GM is conducting a safety recall. We apologize for this inconvenience. However, we are concerned about your safety and continued satisfaction with our products.

## IMPORTANT

- Your vehicle is involved in GM safety recall N192278300.
- Schedule an appointment with your GM dealer.
- This service will be performed for you at **no charge**.

**Why is your vehicle being recalled?**

The driver or passenger front seat frames may have a lower crossbar that was not welded properly. Insufficient welds on the front seat structure may degrade management of occupant loads in certain crashes, which may increase the risk of injury in a crash for occupants seated in the affected front seat.

**What will we do?**

Your GM dealer will inspect both crossbar welds on both driver and passenger front seats. If either side of the crossbar is improperly welded, dealers will replace the seat back frame. This service will be performed for you at **no charge**. Because of service scheduling requirements, it is likely that your dealer will need your vehicle longer than the actual inspection and service correction time of approximately two hours.

**What should you do?**

You should contact your GM dealer to arrange a service appointment as soon as possible.

**Do you have questions?**

If you have questions or concerns that your dealer is unable to resolve, please contact the appropriate Customer Assistance Center at the number listed below.
