This Notice applies to your vehicle VIN listed above.

Dear Forest River Customer:

We are following up with you to make you aware that part of the completion of Recall 19V844 includes changing the coupler size, which in turn, will require a different hitch ball size. Once the recall is complete, please change your hitch ball size from a 2" to a 2 5/16" hitch ball to fit the new coupler size. If you have already had this recall performed, please ensure that the hitch ball is the required 2 5/16" prior to towing the vehicle. The purchase of the 2 5/16" hitch ball is not covered under the recall remedy.

If you have any questions or concerns, please do not hesitate to ask.
