December 9, 2019

To: Forest River # 68, Attn: Keith Fisher

From: MORryde International, Inc.

This letter is to make you aware of a recall we are issuing for units that had hitches installed at MORryde between 8/9/2019 – 11/22/2019. The beginning date may change as we're still investigating but these are the known dates at this time. It's been brought to our attention that the bolts securing the hitch to the chassis could be potentially under-torqued causing the hitch to separate from the chassis. MORryde made an internal change with equipment on 11/22/2019 so all units from that date going forward should be good.

Due to the potential safety risk, MORryde is issuing a safety recall. Though we're not aware of any safety related issues currently, we're erring on the side of safety for our customers.

For additional information on this recall, please contact MORryde warranty.

Phone: 574-293-1581
