OMB Control No.: 2127-0004

Part 573 Safety Recall Report

19V-918

Manufacturer Name: Mercedes-Benz USA, LLC.

Submission Date: JUN 30, 2020 **NHTSA Recall No.:** 19V-918 **Manufacturer Recall No.:** 2020040011

Manufacturer Information:

Manufacturer Name: Mercedes-Benz USA, LLC.

Address: 13470 International Parkway

Jacksonville FL 32218

Company phone: 1-877-496-3691

Population:

Number of potentially involved: 744,852 Estimated percentage with defect: 2 %

Vehicle Information:

Vehicle 1: 2003-2003 Mercedes-Benz CLK55

Vehicle Type: LIGHT VEHICLES

Body Style : 2-DOOR Power Train : GAS

Descriptive Information: 209.376 TJ76 751 Vehicles. The production period is from 1/16/06-8/21/06,

however, vehicles of these platforms from 2001-2011 might be affected, where a

potentially affected sliding roof might have been installed during repair.

Production Dates: JAN 16, 2006 - AUG 21, 2006

Vehicle 2: 2003-2003 Mercedes-Benz E320

Vehicle Type: LIGHT VEHICLES

Body Style : 4-DOOR Power Train : GAS

Descriptive Information: 211.065 UF65 38158 Vehicles. The production period is from 1/16/06-8/21/06,

however, vehicles of these platforms from 2001-2011 might be affected, where a

potentially affected sliding roof might have been installed during repair.

Production Dates: JAN 16, 2006 - AUG 21, 2006

Descriptive Information: 209.375 TJ75 3465 Vehicles. The production period is from 1/16/06-8/21/06,

however, vehicles of these platforms from 2001-2011 might be affected, where a

potentially affected sliding roof might have been installed during repair.

Production Dates : JAN 16, 2006 - AUG 21, 2006

VIN Range 1 : Begin : NR End : NR Not sequential

Description of Defect:

Description of the Defect: Mercedes-Benz AG ("MBAG"), the manufacturer of Mercedes-Benz vehicles, has

determined that on certain C-Class (203 platform), CLK-Class (209 platform), E-Class (211 platform) and CLS-Class (219 platform) vehicles, the bonding

between the glass panel and the sliding roof frame might not meet

specifications.

FMVSS 1: NR FMVSS 2: NR

Description of the Safety Risk: In this case, the adhesion of this bonding might deteriorate gradually over

time. If the bonding adhesion were to deteriorate, the durability

requirements might not be met which could lead to a separation of the glass panel from the vehicle. A displaced panel could increase the risk of a potential

crash or injury for other road users.

Description of the Cause: Due to a production deviation at a supplier, glass panels might have been

bonded without proper application of the primer (bonding agent). The correct usage of the primer is necessary in order to ensure the specified strength of the

bonded joint.

Identification of Any Warning NR

that can Occur:

Involved Components:

Component Name 1 : NR
Component Description : NR
Component Part Number : NR

Supplier Identification:

Component Manufacturer

Name: Webasto Roof & Components SE

Address: Krailing Strasse 5

Stockdorf FOREIGN STATES 82131

Country: Germany

Chronology:

In the beginning of December 2017, MBAG launched initial investigations based on isolated field reports from outside the US claiming that the sliding roof panel detached from the vehicle. No damage or injuries were reported as a result of these events. The sliding roofs of the affected vehicles were requested and returned by the individual markets.

The returned field parts were analyzed by the supplier as well as by an external laboratory. The analysis of the supplier and outside laboratory were inconclusive. Since these analyses did not indicate a potential root cause and this type of sliding roof was already out of production, MBAG began to look for vehicles from the global used car market to carry out further investigations. By November 2018, three sliding roofs were retrieved and analyzed. From these three sliding roofs, two did not indicate any issues, while one of the sliding roof panels exhibited indications of an impaired bonding. It was unclear why the bonding on this particular sliding roof had less adhesion than the other field samples.

MBAG, along with the supplier, also undertook a thorough review of the supplier's production records to determine if there were any changes

Description of Remedy:

Description of Remedy Program: An authorized Mercedes-Benz dealer will check the glass panel bonding on

the affected vehicles and replace the sliding roof, as necessary. There are no vehicles affected by this recall campaign covered by MBUSA's new

vehicle warranty program.

Customers who have already paid to have this recall condition corrected may be eligible to receive reimbursement. Requests for reimbursement may include parts, labor, fees and taxes. Reimbursement may be limited to the amount the repair would have cost if completed by an authorized

Mercedes-Benz dealer.

How Remedy Component Differs Sliding roof with correct bonding of the glass panel.
