

**IMPORTANT SAFETY RECALL INFORMATION**

Issued in Accordance  
With Federal Law

**SAFETY RECALL NOTICE**

TO: All VMI Dealers

Vantage Mobility International (VMI) has decided that a safety defect exists in certain model year **2017 Chrysler Pacifica minivans with the VMI lowered floor**. Accordingly, a recall to address this issue is being initiated effective 6/16/2017. Recall number; NHTSA: 17V0342, Transport Canada: 2017-285.

The defect involves vehicles shipped between 9/1/2016 and 5/10/2017. The rear wheel brake lines may have been routed incorrectly on these vehicles. This defect could result in a vehicle's ABS (Anti-lock Braking System) not performing correctly or at all. Heavy braking applied to the vehicle while the rear wheels happen to be on differing driving surfaces offering different traction properties may cause an incorrect application of the Anti-Lock Braking System (ABS). This could result in an increased risk of a crash without warning and could possibly cause injury or death and/or damage to property.

Owners will be notified by mail about the recall and will be instructed to contact their local VMI dealer for an appointment to have this remedied. There is no cost to owners for this recall.

**Instructions for performing this recall are attached. Parts (if required) are available immediately and will be shipped at no charge upon request. VMI will credit the dealer 1 hour of labor per affected vehicle to perform this repair. Please call VMI Technical Support at 800 488-9082 for affected VINs, complete reimbursement instructions, and requirements or questions you have concerning this recall.**

Please be reminded that it is a violation of Federal law for you to sell or lease any 2017 Chrysler Pacifica minivans covered by this notification until this recall has been performed on affected vehicles. Substantial civil penalties apply to violations of this law.

Your assistance with this recall is appreciated. Should you have any questions or concerns, please contact **VMI Technical Support at 800 488-9082**.
