

New Safety Recall Advanced Communication – W26

FCA US LLC (FCA US) has announced an equipment safety recall on some Mopar bed step kits (part number 82215842AC / 82215842AD).

REASON FOR THIS SAFETY RECALL

Some Mopar bed step kits (part # 82215842AC / 82215842AD) sold in calendar years 2019 and 2020 may fail in certain angular or side-load loading conditions. If a sufficient side-load is applied to the bed step, its mounting bracket may fracture and cause the bed step to suddenly and unexpectedly fail while in use, which can increase the risk of an injury to the user.

SERVICE ACTION

FCA US will conduct a voluntary safety recall to replace the bed step mounting bracket on all affected bed steps. The remedy for this condition is not currently available. Dealers will be notified of the launch of this safety recall by way of established communication methods. This recall is estimated to launch in 2nd Quarter of 2020.

We ask that you please take the time to ensure that your personnel are aware of this communication and are prepared to execute a customer friendly process for inquiries regarding involved vehicles.
