IMPORTANT SAFETY RECALL

RECALL NO. 20E041

July 2020

Dear Valued Code 3 Customer:

We are writing to inform you that Code 3 is conducting a voluntary safety recall of 7 x 9 Stop-Tail-Turn-Reverse All-in-One LED Lamps, Part No. 79STTRBZ. Our records indicate that some of the recalled lamps were shipped to you. Please review this letter carefully for more information.

What Products are Involved?

This recall involves Code 3 7 x 9 Stop-Tail-Turn-Reverse All-in-One LED Lamps, Part No. 79STTRBZ. These lamps were sold as original and replacement equipment for use primarily in emergency vehicles. The recall covers all products with this part number.

What is the Problem?

Recent quality testing conducted by Code 3 indicated that the subject lamps may exceed the maximum permissible candela levels specified in Federal Motor Vehicle Safety Standard (FMVSS) No. 108 at certain test points. The increased photometric intensity may adversely affect the vision of following drivers, increasing the risk of a vehicle crash.

What should you do?

(a) **Product Remaining in Your Inventory:** If any of the subject lamps remain in your inventory, you should return them to Code 3. The returned parts will be replaced with 79STTRBZ-D lamps, that are currently available.

(b) **Products You Sold to Other Resellers:** If you sold the recalled lamps to reselling customers (such as installers, final stage manufacturers, or retailers), you must forward a copy of this letter and the attached NHTSA-approved consumer letter to them within five (5) business days of receipt. They should (i) contact Code 3 at (314) 426-2700 or c3_orders@code3esg.com to arrange for the return of any remaining inventory and (ii) send a copy of the enclosed owner letter to any vehicle owners.
