Subject: Front Passenger Air Bag May Not Properly Inflate

Dear Mr. Cochran:

This letter serves to acknowledge General Motors LLC's notification to the National Highway Traffic Safety Administration (NHTSA) of a safety recall which will be conducted pursuant to Federal law for the product(s) listed below. Please review the following information to ensure that it conforms to your records as this information is being made available to the public. If the information does not agree with your records, please contact us immediately to discuss your concerns.

Makes/Models/Model Years:

PONTIAC/VIBE/2003-2004

Mfr's Report Date: January 23, 2020

NHTSA Campaign Number: 20V-039

Components:

AIR BAGS:PASSENGER SIDE FRONTAL

Potential Number of Units Affected: 554

Problem Description:

General Motors LLC (GM) is recalling certain 2003-2004 Pontiac Vibe vehicles equipped with a front passenger air bag assembly replaced under a prior recall. The replacement air bag may not unfold as designed during inflation in high temperature conditions, possibly resulting in the air bag not inflating properly.

Consequence:

An air bag that does not inflate properly increases the risk of injury in the event of a crash.

Remedy:

GM will notify owners, and dealers will inspect and replace the passenger air bag module, as necessary, free of charge. The recall is expected to begin March 9, 2020. Owners may contact Pontiac customer service at 1-800-762-2737. GM's number for this recall is N192278940.

Notes:

Owners may also contact the National Highway Traffic Safety Administration Vehicle Safety Hotline at 1-888-327-4236 (TTY 1-800-424-9153), or go to www.safercar.gov.

We have received GM's proposed owner notification letter and it is currently under review. You will be notified of any changes or concerns once our review is complete.

Please be reminded of the following requirements:

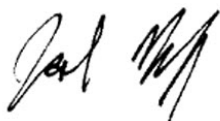

Copies of all notices, bulletins, dealer notifications, and other communications that relate to this recall, including a copy of the final owner notification letter and any subsequent owner follow-up notification letter(s), are required to be submitted to this office no later than 5 days after they are originally sent (if they are sent to more than one manufacturer, distributor, dealer, or purchaser/owner).

Please be reminded that under 49 U.S.C. § 30112(a)(3), it is illegal for a manufacturer, to sell, offer for sale, import, or introduce or deliver into interstate commerce, a motor vehicle or item of motor vehicle equipment that contains a safety defect once the manufacturer has notified NHTSA about that safety defect. This prohibition does not apply once the motor vehicle or motor vehicle equipment has been remedied according to the manufacturer's instructions.

As stated in Part 573.7, submission of the first of six consecutive quarterly status reports is required within one month after the close of the calendar quarter in which notification to purchasers occurs. Therefore, the first quarterly report will be due on, or before, 30 days after the close of the calendar quarter.

Your contact for this recall will be Sarah Shiver who may be reached by phone at (202) 366-7401, or by email at sarah.shiver@dot.gov. We look forward to working with you.

Sincerely,

Joshua Neff
