Dear Jaguar XF Owner:

What is the reason for this program?

It is possible that the fuel tank outlet flange mounted in the fuel tank may crack over time. You may notice a fuel odor, the amber Malfunction Indicator Lamp on the Instrument Cluster may illuminate, and liquid fuel may leak on to the ground.

In some circumstances, there could be a liquid fuel leak underneath the rear of the vehicle, which in the presence of an ignition source could lead to a fire.

What will Jaguar and your authorized Jaguar Retailer do?

Jaguar is carrying out a recall of the vehicles mentioned above. An authorized Jaguar retailer will replace the fuel outlet flange with a component of revised design.

There will be no charge for this repair under this program.

What should you do?

Please contact your preferred authorized Jaguar retailer and provide them with your Vehicle Identification Number (VIN) and request a service date to complete the work required under Program Code 'H283'.

Attention Leasing Agencies: If you are a vehicle lessor, Federal Regulations require you to forward this notice to your lessee within ten days.

How long will it take?

The work will be carried out as quickly and efficiently as possible in order to minimize inconvenience to customers and is expected to take approximately one (1) hour, although your retailer may need your vehicle for a longer time. Your retailer can provide you with a better estimate of the overall time for the service visit.

What if I have previously paid for this concern?

If you have already paid for this concern before the date of this letter, Jaguar is offering a refund. In order to qualify for a refund, after you receive the second notification letter confirming parts are available to repair your vehicle, provide your authorized Jaguar retailer with the original paid receipt.

To avoid delays, please do not send the receipt to Jaguar Land North America.
