What is the issue? Due to a manufacturing issue, the side curtain airbags may not inflate properly in a crash. Depending on the vehicle, this may affect the side curtain airbag on the driver's or passenger side, or both sides. An airbag that does not inflate properly may increase the risk of injury in a crash.

What will we do? To correct this defect, your authorized Audi dealer will replace one or both side curtain airbags. This work will take up to a day to complete and will be performed for you free of charge. Please keep in mind that your dealer may need additional time for the preparation of the repair, as well as to accommodate their daily workshop schedule.

What should you do? Please contact your authorized Audi dealer without delay to schedule this recall repair. For your convenience, you can also visit www.audiusa.com and click on the "Find a Dealer" link to locate a dealer near you and schedule this service.
