Chronology :

After a visit to a school bus operator facility, NHTSA informed Micro Bird that the rear emergency door retaining device of an inspected bus was malfunctioning. After further analysis of the retaining device, as well as inquiries about warranty claims and after-warranty purchases of the parts, it was determined that the part may prematurely, or under certain circumstances, stop functioning correctly. Accordingly, it was decided on February 28, 2020 to recall the vehicles equipped with the identified rear emergency door retaining device
