

DATE: March 2020
TO: Micro Bird Distributors
SUBJECT: Recall # 20-084-RUS /NHTSA # 20V-133
FROM: Marie Claude Gagnon, Product Cert. and Specification Specialist, Micro Bird

This notice is sent to you in accordance with the *National Traffic and Motor Vehicle Safety Act*.

What is being recalled?

Micro Bird has decided that a defect which relates to motor vehicle safety exists in certain T-Series, G5 and MBI school buses, built on Ford, Ford Transit and GM chassis, manufactured between November 2, 2004 and March 6, 2020 equipped with a rear emergency door retaining device

Why is it being recalled?

The rear emergency door retaining device may prematurely stop working properly.

What is the safety issue?

The rear emergency door retaining device may break apart and/or stop retaining the emergency door in the open position, which may cause the door to close during emergency evacuation of the vehicle.

Remedy procedure upcoming

This notice is to advise you that the field remedy procedure and parts are not available at this moment. You will receive a second notice when the remedy procedure become available.

ATTENTION: The rear emergency door retaining device installed in delivered vehicles - Part 18DZZ001 - is no longer available for purchase and shall not be sold to a final owner or installed in a vehicle. Accordingly, we are asking you to immediately quarantine all units of part 18DZZ001 you have in stock. When available, we will provide recall repair kits for the quarantined parts.

A new rear emergency door retaining device – Part A000978 - has been designed and is currently installed in all new vehicles. It will soon be available for purchase.

What we are asking you to do?

1. Locate and remove any Part 18DZZ001 units you have in stock. These parts may be kept for repair, but should not be installed. Contact Rec20-084@microbird.com to inform us of the number of Part 18DZZ001 units for which you will need a repair kit.
