Washington, DC 20590

Regarding: Yamaha Model Year 2019 XV250 Motorcycles, Factory Modification Campaign.

Dear Sir/Madam:

The purpose of this correspondence is to provide preliminary information required by 49 CFR 573 and the National Traffic and Motor Vehicle Safety Act regarding a defect notification campaign we are initiating. Attached are draft copies of the Owner's notification letter, for Agency approval, and the dealer technical bulletin. The envelope format and label has previously been approved by the Agency for prior campaigns.

1. Manufacturers Name: Yamaha Motor Company, Ltd.
2500 Shingai
Iwata, Japan

Imported Vehicle Distributor: Yamaha Motor Corporation, U.S.A.
6555 Katella Avenue
Cypress, California 90630

2. Vehicles Affected: Make: Yamaha
Model: 2019 Model Year XV250 Motorcycles

Nominal Engine Displacement: XV250 is 250cc

Production Period: 12/19/18 to 01/1019

3. The campaign relates to the motorcycle's Lubrication system.

4. Total number of subject vehicles: Current estimate: 17 units. This will be updated in a supplemental report as we finalize the affected VIN range.

5. VIN Range: Tentative range will be supplied in forthcoming draft Technical Bulletin. Likewise, this will be updated in a subsequent report as data is confirmed.
6. The campaign involves the inspection and replacement of the engine side cover. In affected motorcycles, an oil passageway may not be properly machined. If this happens, there is a possibility for improper lubrication of internal engine components, as a result, improper lubrication may cause the engine to stall and may not restart. These conditions could result in the possibility of a crash with injury or death. Please refer to the draft Technical Bulletin which will be furnished to the Agency and Yamaha dealers upon completion describing the situation which is the subject of the campaign.
7. On March 30, 2020, Yamaha Motor Corporation, U.S.A. was informed by the manufacturer, Yamaha Motor Company, Ltd., that such a situation exists. This was determined pursuant to a quality control review, testing and a review of models that use a substantially similar part design.

We anticipate commencing dealer/owner notification shortly after the owner's notification letter is approved by NHTSA (draft copies of the Customer Notification Letter and Technical Bulletin is attached for your review), the affected VIN range is ascertained, and the Technical Bulletin service procedure is confirmed and finalized by Yamaha service staff. Assuming the Agency can approve the letter within 7 days of receipt (perhaps April 15) we will have the letter and Technical Bulletin printed. Normal turn-around time is 3 working days for such printing. Hence the materials will be ready for mailing approximately April 17th. Final copies of these notification documents will be forwarded to the Agency as soon as possible.

In the event we can answer any questions or provide supplemental information, please do not hesitate to contact me. My direct telephone number is 714-761-7842. The fax number is 714-229-7944. My email is brad_franklin@yamaha-motor.com.

Sincerely,

Bradley Franklin
