Dear Mercedes-Benz Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Mercedes-Benz AG ("MBAG"), the manufacturer of Mercedes-Benz vehicles, has decided that a defect which relates to motor vehicle safety exists in certain Model Year 2020 E-Class. Our records indicate that your vehicle is included in the affected population of vehicles.

#### What is the CONCERN?

On certain Model Year ("MY") 2020 E-Class vehicles, the front left seatbelt might not have been installed according to current production specifications. If the seatbelt is improperly installed, it could contact sharp-edged sheet metal components which could damage the seatbelt webbing in the event the emergency tensioning restraint system is activated. A damaged seatbelt may not properly restrain the occupant, increasing the risk of injury for the occupant in the front left seat.

### What will your DEALER DO?

An authorized Mercedes-Benz dealer will check the seatbelt routing on the front left seat on the affected vehicles and correct it, if necessary. If the webbing is damaged, the seatbelt assembly will be replaced. This service will be provided free of charge. We are dedicated to always delivering the best customer experience, and respect for your time is a top priority. While the minimum repair time can be less than 2.5 hours, your dealer can provide you with a better estimate of the overall time for this service visit. As a matter of normal service process, an authorized Mercedes-Benz dealer will also check for other repair measures that might be applicable to your vehicle which may increase the required working time.
