**Potential Number of Units Affected:** 41

**Problem Description:**

Keystone RV Company (Keystone) is recalling certain 2020 Springdale trailers, model 335BHWE. The affected trailers incorrectly have 4400 pound axles and ST255/75R15D tires and rims, instead of the correct 5200 pound axles and ST255/75R15E tires and rims as specified on the Federal Identification Tag.

Keystone will notify owners, and dealers will replace the 4400 pound axles, ST225/75R15D tires, and rims with 5200 pound axles, ST225/75R15E tires, and rims. This recall is expected to begin July 27, 2020. Owners may contact Keystone customer service at 1-866-425-4369. Keystone's number for this recall is 20-379.

Copies of all notices, bulletins, dealer notifications, and other communications that relate to this recall, including a copy of the final owner notification letter and any subsequent owner follow-up notification letter(s), are required to be submitted to this office no later than 5 days after they are originally sent (if they are sent to more than one manufacturer, distributor, dealer, or purchaser/owner).

Please be reminded that under 49 U.S.C. § 30112(a)(3), it is illegal for a manufacturer, to sell, offer for sale, import, or introduce or deliver into interstate commerce, a motor vehicle or item of motor vehicle equipment that contains a safety defect once the manufacturer has notified NHTSA about that safety defect. This prohibition does not apply once the motor vehicle or motor vehicle equipment has been remedied according to the manufacturer's instructions.

As stated in Part 573.7, submission of the first of six consecutive quarterly status reports is required within one month after the close of the calendar quarter in which notification to purchasers occurs. Therefore, the first quarterly report will be due on, or before, 30 days after the close of the calendar quarter.
