IMPORTANT SAFETY RECALL

Side Air Bag Inflatable Curtain

Dear [Name],

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

FCA US has decided that a defect, which relates to motor vehicle safety, exists in certain [2020 Model Year (VF) Ram ProMaster] vehicles.

It is extremely important to take steps now to repair your vehicle to ensure the safety of you and your passengers.

WHY DOES MY VEHICLE NEED REPAIRS?

The Side Air Bag Inflatable Curtain (SABIC) on your vehicle ^[1] may have an improperly crimped diffuser. This may cause the diffuser to separate from the inflator during a SABIC deployment and compromise the integrity of the air bag or cause the SABIC fill time to be delayed. If the separated diffuser compromises the integrity of the air bag or if the SABIC fill time is delayed, occupant protection may be reduced in the event of a crash. **Reduced occupant protection in the event of a crash may result in an increased risk of injury to motor vehicle occupants.**

HOW DO I RESOLVE THIS IMPORTANT SAFETY ISSUE?

FCA US will repair your vehicle ^[2] free of charge (parts and labor). To do this, your dealer will replace the SABIC assemblies in all affected vehicles. The estimated repair time is two hours. In addition, your dealer will require your vehicle for proper check-in, preparation, and check-out during your visit, which may require more time. Your time is important to us, so we recommend that you schedule a service appointment to minimize your inconvenience. Please bring this letter with you to your dealership.
