[INT olFL856-CA2.pdf](#)
Importance: High

[REDACTED]

Please see attached *AMENDED* DIR/DIN for Recall FL856. The population has been expanded to include ALL vehicles in FL788 and ALL vehicles that were inspected/repaired prior to the release of FL856. The "bookend" build dates have also changed. They are Nov. 23-2015, through June 3, 2019. Please disregard any previous spreadsheets that I sent concerning FL856, or INT FL856, and use the attached INT FL856 [REDACTED] ADD.xlsx for your reference going forward.

Spreadsheet- PLEASE NOTE:

- Vehicles highlighted in **Yellow** are **Canadian VINs**. **If Column C is empty the VINs are new addition to the Canadian population**. DTNA does not notify in Canada. **Interim** owner notice must come from the Body Builder. (A Canadian INT owner notice (translation on back) is attached for your reference)
- Vehicles highlighted in **Green** are US VINs. The INT FL856 Interim owner notice was mailed back on 9/1/2020. This is the "Original" FL856 population.
- Vehicles with **NO FILL** are additions to the population and the US INT owner notice has been sent to the mailing service. The US owner notice is attached for your reference.

Thank you,

Emily Wiley-McAdams
DTNA Warranty Campaigns Project Lead
