As a result, TMC is conducting a safety recall. We apologize for any inconvenience this action may cause you; however your safety and continued satisfaction are of the utmost importance to us.

***Reason for
this recall***

It has been discovered that on certain model year 2021 Daybreak, Four Winds, Quantum, Chateau, and Freedom Elite motorhomes built on the 2020 Ford E-Series chassis, the battery cable may not have been properly secured within the chassis rail. If the cable was not properly secured, it may come in contact with the heat shield and exhaust manifold, which could lead to a fire. This could result in property damage, personal injury, or death.

***What we
will do***

TMC has contacted your selling dealer and has instructed them on how to inspect the routing of the battery cable and re-route and properly secure the cable as needed. This will be done at no cost to you the owner. The remedy should take approximately up to 20 minutes to perform.
