

09/14/2020

20V-524 Chronology

1. All principal events that were the basis for the determination that the defect related to motor vehicle safety.

Details about chronology of principal events are listed here below:

Warranty monitoring; from January 2020 there have been new warranties about to excessive play in the brake levers/pedal after the vehicle has been sitting for an extended period of time.

2. A summary of all warranty claims, field or service reports,

Enclosed: summary of related warranty claims on brake .

Relevance of each event is classified adding ranking 1-2-3 (1=accident; 2= clear feedback from the customer; 3= low evidence or not clear relation to the issue).
