Problem Description:

Fontaine Modification (Fontaine) is recalling certain 2016-2020 Autohaulers built on Freightliner 114SD chassis. Movement of the cab during operation may cause the battery cable to contact the bottom of the cab, possibly damaging the cable.

Consequence:

Damage to the cable can result in an electrical short, increasing the risk of a fire.

Remedy:

Fontaine will notify owners, and dealers will ensure that the cable cannot be damaged, free of charge. The recall is expected to begin September 21, 2020. Owners may contact Fontaine customer service at 1-800-366-8246.

Notes:

Owners may also contact the National Highway Traffic Safety Administration Vehicle Safety Hotline at 1-888-327-4236 (TTY 1-800-424-9153), or go to www.safercar.gov.

Also, copies of all notices, bulletins, dealer notifications, and other communications that relate to this recall, including a copy of the final owner notification letter and any subsequent owner follow-up notification letter(s), are required to be submitted to this office no later than 5 days after they are originally sent (if they are sent to more than one manufacturer, distributor, dealer, or purchaser/owner).

Please be reminded that under 49 U.S.C. § 30112(a)(3), it is illegal for a manufacturer, to sell, offer for sale, import, or introduce or deliver into interstate commerce, a motor vehicle or item of motor vehicle equipment that contains a safety defect once the manufacturer has notified NHTSA about that safety defect. This prohibition does not apply once the motor vehicle or motor vehicle equipment has been remedied according to the manufacturer's instructions.

As stated in Part 573.7, submission of the first of six consecutive quarterly status reports is required within one month after the close of the calendar quarter in which notification to purchasers occurs. Therefore, the first quarterly report will be due on, or before, 30 days after the close of the calendar quarter.
