IMPORTANT SAFETY RECALL
See enclosed VIN list

Subject: FCCC Motorhome Valve Stem Stabilizers

This notice is sent to you in accordance with the requirements of the *National Traffic and Motor Vehicle Safety Act*.

Daimler Trucks North America LLC (DTNA), and its wholly owned subsidiary, Freightliner Custom Chassis Corporation, has decided that a defect which relates to motor vehicle safety exists on specific Model Years 2017 - 2020 FCCC MC, XCL, XCM, XCR, and XCS chassis manufactured February 20, 2017, through August 15, 2020, and equipped with a valve stem extension and stabilizer configured with a specific tire valve stem and wheel combination.

Certain chassis may have been built with the tire valve stem extension for the inner wheel contacting the outer wheel rim opening, potentially damaging the valve stem resulting in a loss of air pressure in the inner tire. A loss of air pressure in the inner tire on a motorhome with a single drive axle may overload the outer tire and increase the risk of a crash.

The inner wheel valve stem stabilizers will be inspected and adjusted as needed. If the adjustment does not resolve the issue then the inner valve stem will be replaced. Repairs will be performed by Daimler Trucks North America authorized service facilities.
