**Subject: Shipping Delays PHEV Modules for 20V-601, Bulletin B61 23 20**

Please read the below update regarding the PHEV Modules:

- No PHEV modules (all part numbers) are currently shipping from KemKrest due to packaging.
- We expect to receive packaging starting early next week, shipments should begin again mid to late next week.
- Oldest orders will be shipped first.
- If you have sent an IDS ticket your order is in the queue, please do not resend your request.
- Please ensure you review the bulletin and claim test plan using the temporary defect code, do not claim the complete repair until the modules have been replaced.
- The test plan can be done via Mobile Service so the customer does not have to visit the dealership twice.
- Or bring the vehicle in for the test plan, release the vehicle and schedule an appointment once all parts have arrived for the repair.
- Do not start work on the vehicle until you have all necessary parts including the modules.
- Please read the weekly Parts Matrix for additional information.

We will continue to provide updates as the situation changes, your patience is appreciated.

Sincerely,  
Technical Service
