**Subject: Safety Recall 24Gi – Fuel Rail Bolts**

Dear Volkswagen Owner,

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act. Volkswagen has decided that a defect, which relates to motor vehicle safety, exists in certain 2016-2018 model year Volkswagen vehicles. Our records show that you are the owner of a vehicle affected by this action.

**What is the issue?** The fuel rail bolts on affected vehicles may become loose over time. This can result in a fuel leak. Leaking fuel, in the presence of an ignition source, may result in a vehicle fire.

**What will we do?** To correct this defect, your authorized Volkswagen dealer will replace the affected fuel rail bolts and, if necessary, replace the fuel rail. This work will take a few hours to complete and will be performed for you free of charge. Please keep in mind that your dealer may need additional time for the preparation of the repair, as well as to accommodate their daily workshop schedule.

**What should you do?** Please contact your authorized Volkswagen dealer without delay to schedule this recall repair. To set up an appointment online, please visit [www.vw.com/find-a-dealer](http://www.vw.com/find-a-dealer).

**Precautions you should take** If this condition is present in the vehicle, owners may notice a fuel odor or see leaking fuel coming from the engine compartment. Owners experiencing this condition with their vehicle are advised to contact an authorized Volkswagen dealer without delay to make arrangements to have the vehicle inspected/repared.

**Lease vehicles and address changes** If you are the lessor and registered owner of the vehicle identified in this action, the law requires you to forward this letter immediately via first-class mail to the lessee within ten (10) days of receipt. If you have changed your address or sold the vehicle, please fill out the enclosed prepaid Owner Reply card and mail it to us so we can update our records.
