#### The information contained in this report was submitted pursuant to 49 CFR §573

# Part 573 Safety Recall Report

Manufacturer Name :	Volvo Car USA LLC
Submission Date :	NOV 05, 2020
<b>NHTSA Recall No. :</b>	20V-681
Manufacturer Recall No. :	R10058

#### **Manufacturer Information :**

Manufacturer Name : Volvo Car USA LLC Address : 270 Three Point Drive Ridgeville SC 29472 Company phone : 201-768-7300

#### Vehicle Information :

from field recovery studies, weather data from respective area and vehicle spectrum data. The affected vehicles are Models S60 and S80 M/Y 2001-2003. Production Dates : MAY 20, 2000 - MAR 13, 2003 VIN Range 1 : Begin : YV1TS94K511147860 End : YV1TS92D331317579 Not sequence Vehicle 2 : 2001-2003 VOLVO S60 Vehicle Type : LIGHT VEHICLES Body Style : 4-DOOR Power Train : GAS Descriptive Information : Concerned vehicles are from the introduction of propellant 5 AT 148 N. S60/S MY2001-MY2003 in hot and humid areas are identified based on knowledge for field recovery studies, weather data from respective area and vehicle specific temperature data. The affected vehicles are Models S60 and S80 M/Y 2001-2003 VOL-2003 VOL-20			
Body Style: 4-DOOR   Power Train: GAS   Descriptive Information: Concerned vehicles are from the introduction of propellant 5 AT 148 N.   S60/S80 MY2001-MY2003 in hot and humid areas are identified based on know from field recovery studies, weather data from respective area and vehicle spectre temperature data.   The affected vehicles are Models S60 and S80 M/Y 2001-2003.   Production Dates: MAY 20, 2000 - MAR 13, 2003   VIN Range 1: Begin: YV1TS94K511147860 End:   YV1TS92D331317579 □ Not sequestion   Vehicle 2: 2001-2003 VOLVO S60   Vehicle Type: LIGHT VEHICLES   Body Style: 4-DOOR   Power Train: GAS   Descriptive Information: Concerned vehicles are from the introduction of propellant 5 AT 148 N. S60/S   MY2001-MY2003 in hot and humid areas are identified based on knowledge field recovery studies, weather data from respective area and vehicle specific temperature data. The affected vehicles are Models S60 and S80 M/Y 2001-20		Vehicle 1:	2001-2003 VOLVO S80
Power Train:GASDescriptive Information:Concerned vehicles are from the introduction of propellant 5 AT 148 N. S60/S80 MY2001-MY2003 in hot and humid areas are identified based on know from field recovery studies, weather data from respective area and vehicle spectremperature data. The affected vehicles are Models S60 and S80 M/Y 2001-2003.Production Dates:MAY 20, 2000 - MAR 13, 2003 VIN Range 1 : Begin:YV1TS94K511147860End:YV1TS92D331317579Not sequenceVehicle 2:2001-2003 VOLVO S60 LIGHT VEHICLES Body Style:4-DOOR Power Train:GASDescriptive Information:Concerned vehicles are from the introduction of propellant 5 AT 148 N. S60/S MY2001-MY2003 in hot and humid areas are identified based on knowledge field recovery studies, weather data from respective area and vehicle specific temperature data. The affected vehicles are Models S60 and S80 M/Y 2001-2003		01	
Descriptive Information : Concerned vehicles are from the introduction of propellant 5 AT 148 N.   S60/S80 MY2001-MY2003 in hot and humid areas are identified based on know from field recovery studies, weather data from respective area and vehicle spectrum data.   The affected vehicles are Models S60 and S80 M/Y 2001-2003.   Production Dates : MAY 20, 2000 - MAR 13, 2003   VIN Range 1 : Begin : YV1TS94K511147860 End : YV1TS92D331317579   Not sequence   Vehicle 2 : 2001-2003 VOLVO S60   Vehicle Type : LIGHT VEHICLES   Body Style : 4-DOOR   Power Train : GAS   Descriptive Information : Concerned vehicles are from the introduction of propellant 5 AT 148 N. **20V-681** 

#### **Description of Defect :**

Description of the Defect :	Volvo Cars investigations have identified an issue regarding the driver airbag. In the event of a crash were the driver airbag is activated, fragments of the inflator inside the airbag may, in certain cases, project out and in worst case strike you, potentially resulting in serious injury or death. Volvo Cars centrally has received and is aware of one fatality report related to this condition.
FMVSS 1 :	NR
FMVSS 2 :	NR
Description of the Safety Risk :	In the event of a crash with a driver airbag activation where a rupture occurs the driver might be struck by fragments from the inflator potentially resulting in serious injury or death.
Description of the Cause :	If the propellant tablets are subjected to elevated moisture levels and frequent high inflator temperatures, the tablets can start to decay and form dust particles. When exposed to high temperatures, moisture leaves the tablet and when cooled down is absorbed and accumulated on the tablets surface. This localization of moisture leads to volumetric changes of the tablets surface creating dust over time. Dust increases burn surface area and thereby burn rate. Higher burn rate can result in higher combustion chamber pressure and risk of inflator rupture.
Identification of Any Warning that can Occur :	NR

#### **Involved Components :**

Component Name 1: FG2 Twin Driver Airbag inflator containing 5AT 148

Component Description : Airbag Inflator

Component Part Number: NR

#### **Supplier Identification :**

#### **Component Manufacturer**

Name : ZF Group Address : 12001 Tech Center Drive Livonia MICHIGAN 48150 Country : United States

The information contained in this report was submitted pursuant to 49 CFR §573

#### **Description of Remedy :**

Description of Remedy Program :	To remedy the concerned vehicles Volvo Cars needs to replace the Driver Airbag at no cost to the customer.
How Remedy Component Differs from Recalled Component :	Driver airbag with a modern state-of-the-art propellant/inflator.

The information contained in this report was submitted pursuant to 49 CFR §573

### Part 573 Safety Recall Report

Page 4

Identify How/When Recall Condition	Deviation has been identified through component testing at the inflator
was Corrected in Production :	manufacturer (ZF) and analysis of field return parts investigated together
	with the inflator manufacturer (ZF) and NHTSA.

#### **Recall Schedule :**

Description of Recall Schedule : NR Planned Dealer Notification Date : NOV 04, 2020 - NOV 04, 2020 Planned Owner Notification Date : JAN 04, 2021 <sup>-</sup> JAN 04, 2021

\* NR - Not Reported
