IMPORTANT SAFETY RECALL

See enclosed VIN list.

Subject: Freightliner Econic SD Battery Cables and Ground Ring Terminal

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

Daimler Trucks North America LLC (DTNA), on behalf of its Freightliner Trucks division, has decided that a defect that relates to motor vehicle safety exists on specific Model Year 2019-2021 Freightliner Econic SD model vehicles, manufactured June 24, 2019, through October 29, 2020.

On certain vehicles, the routing and securement of certain electrical power cables at the battery relay and ground wires may become damaged. A damaged power cable coming into contact with the ground wires at the battery relay may increase the risk of a thermal event from overloading the ground connection. Additionally, a damaged ground connection may also result in an unexpected engine stall without warning and inability to restart.

The left ground wires will be rerouted and receive a new connection joint. The battery cables will be reoriented and receive new heat sleeves. Repairs will be performed by Daimler Trucks North America authorized service facilities.

Please contact an authorized Daimler Trucks North America dealer to arrange to have the Recall performed and to ensure that parts are available at the dealership. To locate an authorized dealer, go to Daimler-TrucksNorthAmerica.com/contact-us/. Scroll down to "Locate a Dealer," and select the appropriate brand. The Recall will take approximately one hour and will be performed at no charge to you.
