INTERIM SAFETY RECALL NOTICE FOR YOUR VEHICLE

A recall repair is not yet available

This notice is sent to you in accordance with the *National Traffic and Motor Vehicle Safety Act*. Volkswagen has decided that a defect, which relates to motor vehicle safety, exists in certain Volkswagen vehicles. Our records show that you are the owner of a vehicle affected by this action.

Why we sent you this letter.

This is an interim safety recall notice about a recall for your vehicle. It contains important information you need to know, even though a repair is not yet available. Please share this letter with everyone who drives your vehicle.

About this recall:

During two (2) NHTSA New Car Assessment Program (NCAP) tests, the seat belts on the front driver side of the Tiguan ruptured. A ruptured seat belt may increase the risk of injuries in the event of a vehicle crash.

A recall repair is not yet available.

We will send another letter as soon as the recall work can be completed on your vehicle. The recall repair is expected to become available in May 2021, once parts supply permits.

What you can do now:

Please do not contact your dealer about this recall; they do not yet have the parts available to schedule this recall repair for you. As always, if you are experiencing any issues with your vehicle, please reach out to your authorized Volkswagen dealer for assistance.

Your safety and that of your passengers is our highest priority, and we are working to make a recall repair available as soon as possible. We apologize for any inconvenience this letter may cause.

Sincerely,

Volkswagen Customer Protection

Volkswagen of America, Inc., 3800 Hamlin Road, Auburn Hills, MI 48326
