Dear Valued Retailer,

Dorel Juvenile Group, Inc. is preparing to conduct a voluntary safety recall of certain Maxi-Cosi Pria 85 car seats, designed for use for children weighing 14 to 85 pounds. When the seat is installed in the forward-facing position and secured to the vehicle using the lap belt without also using the top tether, the seat may not adequately protect the child from head injury in the event of a crash. There have been no injuries or incidents reported related to this condition.

Dorel Juvenile is working with NHTSA on the scope of the recall related to manufacture dates as well as the remedy to consumers.
