Mfr's Report Date: January 7, 2021

NHTSA Campaign Number: 21E-001

Components:

EQUIPMENT

Potential Number of Units Affected: 86,243

Problem Description:

Automann Inc. (Automann) is recalling certain Warning Triangle Sets, part number 562.9000. The color, reflectivity and stability of the warning triangles may result in reduced effectiveness. Consequence:

The warning triangles may not be sufficiently visible to oncoming vehicles, potentially increasing the risk of a crash.

Remedy:

Automann will notify its distributors offering a credit for the full purchase price for all returned or destroyed units in its inventory. Automann will request that distributors notify all purchasers, for them to return the warning triangle kits, for a credit of the full purchase price. The recall is expected to begin January 18, 2021. Owners may contact Automann customer service at 1-201-529-4996. Automann's number for this recall is 0012021.

Under 49 U.S.C. § 30112(a), it is illegal for anyone, including a manufacturer, distributor, dealer, or retailer to sell an item of equipment or vehicle that fails to comply with all applicable Federal motor vehicle safety standards.

Please be reminded of the following requirements:

Copies of all notices, bulletins, dealer notifications, and other communications that relate to this recall, including a copy of the final owner notification letter and any subsequent owner follow-up notification letter(s), are required to be submitted to this office no later than 5 days after they are originally sent (if they are sent to more than one manufacturer, distributor, dealer, or purchaser/owner).

As stated in Part 573.7, submission of the first of six consecutive quarterly status reports is required within one month after the close of the calendar quarter in which notification to purchasers occurs. Therefore, the first quarterly report will be due on, or before, 30 days after the close of the calendar quarter.
