

IMPORTANT SAFETY RECALL

Dear Valued Retail Partner:

This letter is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

Enerco has decided that a defect which relates to motor vehicle safety exists in certain propane regulators manufactured for Enerco by Winnspec/Chen Fong for use in recreational vehicles.

This notice applies to Enerco propane regulators, model number 73766 manufactured on or after April 30, 2018 and model number 73836(G) manufactured in 2019. Some of the products were packaged under the brand name Mr. Heater. Enerco has been advised that these propane regulators may be unable to control propane pressure to appliances located in the recreational vehicle. Elevated propane pressure may cause the flame of an RV appliance to become larger and under certain rare circumstances, may cause adjacent materials to ignite, posing a risk of burn injuries to occupants of the recreational vehicle, increasing the risk of a fire. Our records show that you purchased some of these propane regulators from Enerco for resale to your customers.

Please check your inventory for any products subject to this safety recall and return them to Enerco. Enerco will compensate you for the shipping expenses and will work with you to replace the affected inventory at no cost to you.

If any consumers contact you about this recall, or about an Enerco propane regulator, please direct them to call 1-800-964-4328.

If you believe that Enerco has failed to remedy this defect adequately, you may contact NHTSA at: Administrator; National Highway Traffic Safety Administration; 1200 New Jersey Avenue, SE; Washington, DC 20590. Alternatively, you may call the DOT Safety Hotline toll-free at 1-888-327-4236 (TTY: 1-800-424-9153) or go to www.safercar.gov.

Enerco is required to inform you that it is a violation of federal law for any dealer, distributor or retailer to sell or lease any propane regulator covered by this recall notice.

Enerco regrets the need for this recall, but the safety of our mutual customers is Enerco's highest priority.
