TO: Valued Trail King Trailer Customer

NHTSA Recall Number: 21V-066

Trail King Recall Number: TK202101

DATE: February 18, 2021

IMPORTANT SAFETY RECALL

This notice applies to your vehicle with VIN: _____.

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act

Trail King has decided that a defect which relates to motor vehicle safety exists in the air disc brakes on front axles of vehicles that utilize yoke type front suspension on certain Trail King trailers.

What Trailers are being recalled?

This recall affects various Trail King trailers with air disc brakes using the disc brake chamber extension tube on the front axle with yoke type suspensions on 2019-2021 model years. Models, TK70HDG, TK70AHG, TK70AMG, TK80AHG, TK90AHG, TK90AMG, TK102HDG, TK102MG, TK110HDG, TK120HDG, TK120LPSD, TKHB2, TKMB3, TK150HDG

What is the Problem?

Trail King has determined that these specific models may be missing sealant on the disc brake chamber extension tube on the front axle only. As a result, water may intrude into the brake caliper causing corrosion and or freezing of the mechanism inside the caliper. If this condition occurs, the braking effectiveness of the front axle may be reduced, increasing the risk of a crash.

What should you do?

Obtain and confirm your trailer's serial number from the VIN plate located on your trailer. You are receiving this letter because our records show you are the current owner of this vehicle. You should inspect the trailer air disc brake system on the front axle only for proper operation. Please contact your nearest Trail King Industries dealer to have your trailer inspected and repaired. You also can contact Trail King Industries directly at 1-800-843-3324 and our Customer Service Department will help you locate a dealer near you. We will send the parts if needed to the dealer to repair your trailer.

What will we do?

Trail King Industries is conducting a safety recall campaign to address this issue. An authorized Trail King Industries Service Center will inspect and reseal the disc brake chamber extension tube on the front axle on your trailer. These repairs should take approximately 3 hours and will be performed at no charge to you.

If this repair has been performed at prior to receipt of this notification, you may be eligible to receive reimbursement for the cost of obtaining a pre-notification remedy of the problem associated with this recall. For more information, contact Trail King at the phone number noted below.

If you no longer own the vehicle covered by this Safety Recall Notice, please provide the name and contact information for the new owner by contacting Trail King Industries at 1-800-843-3324 and ask for Customer Service or email to ODCustomerservice@trailking.com. This will enable us to advise the new owner of this recall.

Pursuant to Federal Law, any vehicle lessor receiving this recall notice must forward a copy of this notice to the lessee within ten (10) days.

If Trail King Industries fails or is unable to provide a remedy within a reasonable time, you may wish to contact the Administrator, National Highway Traffic Safety Administration, 1200 New Jersey Avenue, SE, Washington, DC 20590, or call the toll-free Auto Safety Hotline at 1-888-327-4236 (TTY: 1-800-424-9153); or contact NHTSA at <http://www.safercar.gov>.

We regret any inconvenience this may cause you, but we are initiating this action in the interest of your personal safety and satisfaction with our products.

Sincerely,
Customer Service
