IMPORTANT SAFETY RECALL
See enclosed VIN list

Subject: M2 Transmission Oil Cooler Line

This notice is sent to you in accordance with the requirements of the *National Traffic and Motor Vehicle Safety Act*.

Daimler Trucks North America LLC (DTNA), on behalf of its Freightliner Trucks Division, has decided that a defect which relates to motor vehicle safety exists on specific Model Year 2014-2019 Freightliner Business Class M2 vehicles manufactured October 17, 2013, through September 25, 2018, and equipped with a Mahle-Bahr radiator.

On specific vehicles, the retaining clip that engages the transmission oil cooler line connection to the in tank oil cooler may fail and allow the transmission fluid cooler hose to disengage which may allow fluid to leak. If a rapid loss of transmission fluid occurred, it could lead to fluid on the road, which may present a risk of a motor vehicle hitting the fluid and causing loss of vehicle control.

Both fittings will be inspected for leakage, breakage, or damage, and the locking clip replaced as needed. Repairs will be performed by Daimler Trucks North America authorized service facilities.

Please contact an authorized Daimler Trucks North America dealer to arrange to have the Recall performed and to ensure that parts are available at the dealership. To locate an authorized dealer, search online at Daimler-TrucksNorthAmerica.com/Contact-us. Scroll down to "Locate a Dealer" and select the appropriate brand.
