Dear Mercedes-Benz Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Mercedes-Benz AG ("MBAG"), the manufacturer of Mercedes-Benz vehicles, has decided that a defect which relates to motor vehicle safety exists in certain Model Year 2020 CLA-Class vehicles. Our records indicate that your vehicle is included in the affected population of vehicles.

**What is the CONCERN?**

Mercedes-Benz AG ("MBAG"), the manufacturer of Mercedes-Benz vehicles, has determined that in certain Model Year ("MY") 2020 CLA-Class vehicles with a 4-cylinder gasoline engine, an incorrect type of a spark plug might have been installed which could affect the safety and emissions of the vehicle. As a result, increased mechanical wear of the spark plug from high-heat overload could occur over time and cause parts of the spark plug to possibly detach within the combustion chamber, leading to engine damage. If this occurs, the engine may stall, which could increase the risk of a crash.

**What will your DEALER DO?**

An authorized Mercedes-Benz dealer will replace the spark plugs on the affected vehicles. **This service will be provided free of charge.** We are dedicated to always delivering the best customer experience, and respect for your time is a top priority. While the minimum repair time can be less than **1 hour**, your dealer can provide you with a better estimate of the overall time for this service visit. As a matter of normal service process, an authorized Mercedes-Benz dealer will also check for other repair measures which might be applicable to your vehicle and this may increase the required working time.

**What should YOU DO?**

To find the most convenient authorized Mercedes-Benz dealer from your smartphone, scan the QR code to the left.
