Subject: Safety Recall 44R1 –Continental Tires

Dear Volkswagen Owner,

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act. Volkswagen has decided that a defect, which relates to motor vehicle safety, exists in certain 2018-2020 model year Volkswagen vehicles. Our records show that you are the owner of a vehicle affected by this action.

What is the issue?

Vehicles included in this recall may have received potentially affected "overcured" Continental brand tires out of specific production lots. The potentially affected tires may experience a carcass break in the sidewall with sudden air loss, or could develop a belt edge separation that could lead to a partial or full tread/belt loss. Sudden loss of tire air pressure without warning may cause loss of vehicle control, increasing the risk of a crash.

What will we do?

To correct this defect, your authorized Volkswagen dealer will inspect and, if necessary, replace affected tire(s). The inspection will take about a half an hour. If tire(s) replacement is needed, it can take up to two hours. This work will be performed for you free of charge. Please keep in mind that your dealer may need additional time for the preparation of the repair, as well as to accommodate their daily workshop schedule.

What should you do?

Please contact your authorized Volkswagen dealer without delay to schedule this recall repair. To set up an appointment online, please visit www.vw.com/find-a-dealer.
