## Undelivered Vehicles (WMC1)

Please be advised that Stop Delivery Campaign WMC1 has been expanded to include sold/delivered vehicles in customer hands as Safety Recall AMA3.

WMC1 vehicles have been rolled into the AMA3 recall population, and must not be delivered until remedied. Remedy availability is expected in early April.

## Overview

There is a possibility that locknuts that were not manufactured to specification were used on diverse threaded connections of the vehicle's suspension.

As a result, the specified tightening torque may not have been met on the threaded connection and therefore cannot be guaranteed over the service life of the affected vehicles.

The locknut and the corresponding bolt at the relevant connections will be replaced and torqued to specification.

<b>Model year</b>	2021
<b>Number of affected vehicles</b>	396

## Test instructions and remedial measures

Will be communicated once available (approx. calendar week 13).
