«Country»

Dear «Dealer_name»,

Keystone RV Company has decided that a defect which relates to motor vehicle safety exists in certain model 2021 Cougar Fifth Wheels and Travel Trailers. As a result, Keystone RV is conducting a safety recall.

***Reason for
this recall***

It has been decided that the vehicles in the recall population have an inverter that may have been incorrectly wired and when in use is allowing power to energize the shore power connection. When the incorrectly wired inverter is turned on, 120VAC power will energize the shore power connection leading to an increased risk of personal injury. The vehicles included in the recall are:

2021 Cougar Fifth Wheels and Travel Trailers, 29MBS, 30RLS, 315RLS, 316RLS, 32BHS, 353SRX, 364BHL, 368MBI

Serial Number Ranges: M2500058 - M2505320

Our records indicate unit(s) sold or in your present lot inventory fall within this range, which will require immediate preventative action. **Important:** If some of the units are still in your inventory, Federal Law requires you to complete the recall service on those units before retail delivery. The unit VIN(s) our records indicate are presently in your inventory or have been sold are as follows:

«VIN1» «VIN2» «VIN3»
-- Serial numbers with '*' have been retail sold --

Claims for the units which have been serviced must be submitted. Claims submitted will be used by Keystone to record recall service completions and provide dealer payments. Enclosed is a copy of the Safety Advisory #20-389, which details how to remedy the situation and the proper reimbursement procedures.

We apologize for any inconvenience this situation may cause and greatly appreciate your cooperation. Should you have any questions or concerns regarding this correspondence or the enclosed Safety Advisory, please feel free to contact us.

Sincerely,

KEYSTONE RV COMPANY

Rick Deisler
