IMPORTANT SAFETY RECALL

Safety Recall: 21V-179 21V-184 21V-204 21V-203 May 2021

This Notice Applies to Your Recreational Vehicle «unit serial »

Dear Valued Customer:

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

Jayco has decided that a defect, which relates to motor vehicle safety, exists in certain 2019 and 2020 Jayco White Hawk, Jay Flight SLX, Jay Feather, Jay Flight travel trailers. Starcraft Mossy Oak, GPS, Mossy Oak Lite, Autumn Ridge Outfitter, Launch Outfitter travel trailers Highland Ridge, Open Range, Mesa Ridge, Highlander, Silverstar travel trailers and fifth wheels. Alante, Precept, Greyhawk, Redhawk, Esteem and Odyssey motorhomes, manufactured with the Dometic S31, R1731 or R2131 propane-cooking stove.

Reason for this recall

An odor of gas near the stove may be detected when not in operation. If user attempts to tighten the bolt for the stove's valve in order to stop the smell, they could over-tightened the bolt and cause damage to a seal. This can result in a continuous gas leak. A propane gas leak could create risk of a fire or explosion.

Recall Remedy

Replace the manifold bolts and valve seals and perform a leak test. Dometic Recall Hotline contact #: 888-943-4905 or 574-389-3713 or go to www.Dometic.com

What we need you to do

Please read the enclosed information from Dometic carefully and confirm the model and serial number of the cooking stove in your recreational vehicle. If the model and serial number is included in the Dometic recall population, please call a Jayco dealer as soon as possible and set an appointment for the Recall Remedy.

DO NOT USE YOUR STOVE IF IN THE AFFECTED POPULATION.

When inspection does **NOT** find a recalled cooking stove, please complete and return the Compliance Reply Form to Jayco so we can update our records.

Federal regulations require that any vehicle lessor receiving this recall notice must forward a copy of this notice to the lessee within ten days.

If you had this repair completed prior to receipt of this recall notice, you may be eligible to receive reimbursement for the cost of obtaining a pre-notification remedy of the problem associated with this recall.

If you take your recreational vehicle to your dealer on the agreed service date and the dealer does not remedy this condition on that date or within three (3) days, please contact our Customer Service Department. If you are unable to get this safety defect remedied without charge and/or within a reasonable amount of time after contacting your dealer and Jayco customer service, you may want to contact NHTSA. To submit a written complaint, contact the Administrator, National Highway Traffic Safety Administration, 1200 New Jersey Avenue, SE., Washington, DC 20590; or call the toll-free Vehicle Safety Hotline at 1-888-327-4236 (TTY: 1-800-424-9153): or go to <http://www.safercar.gov>.

We certainly regret this inconvenience; however, your safety is our most important priority.

Sincerely,
Jayco Compliance Management

2020	00100000 through 02799381

S31 Series Model Numbers:

(Model Number)	(Item Number)	(Legacy Number)
S31-BMFBO	9600005915	50300
S31-BPFBO	9600005916	50301
S31-SPCMO	9600005917	50304
S31-SPFMO	9600005945	50303

S31 Series Serial Numbers:

(Year)	(Serial Number Range)
2018	SU82200001 through SU83900100
2019	SU93400001 through SU93400100
2019	SU93600001 through SU93600300
2020	SU02100001 through SU02100100

NOTES:

Both the model number **and** the serial number must be on the list to be affected by therecall.

The complete serial number for these stoves often begins with the five (5) digit legacy number noted above; this number will need to be temporarily disregarded to determine if the stove is affected by the recall.

If an R1731, R2131, or S31 model stove is affected by the recall, the manufacture date on the model & serial number data tag will be between 05/03/2018 through 07/09/2020.

IMPORTANT SAFETY RECALL INFORMATION

Issued in Accordance
With Federal Law

Dear Valued Customer:

This notice is sent to you in accordance with the requirements of the National Highway Traffic and Motor Vehicle Safety Act

RE: Dometic S31, R1731, AND R2131 Series COOKING STOVES; Recall – 20E071

Dear Valued Customer:

Dometic Corporation has decided that a defect which is related to motor vehicle safety exists on the S31, R1731, AND R2131 Series COOKING STOVES that were manufactured between May of 2018 and July 9, 2020.

The Problem:

The user of a recreational vehicle or marine vessel can become aware of the potential defect when, after some period of usage, begins to smell gas near the stove when it is not in operation; if the user or other servicer then attempts to tighten the bolts that hold the valves under the stove burners, the tightening action can cause irreversible damage to the o-ring seal at the valve(s), resulting in a continuous gas leak. Such leak can result in a fire.

Affected Units:

The potentially affected Cooking Stoves have the following model series numbers

S31

with suffixes S31 with suffixes BMFBO, BPFBO, SPCMO, SPFMO

R1731

with suffixes BBPFBO, BBPCMO, BBPFBR, BBPFMO, BDICMO, BSPCMO, BSPCMR, BSPFBO, BSPFBR, BSPFMO, BSPFMR, SLICMO, SSPCMO, SSPFBO, SSPFBR, SSPFMO, AND SSPFMRR2131

with suffixes BBPFBO, BBPCMO, BSPCBO, BSPCMO, BSPFBO, BSPFMO, BSPFMR, SSPCMO, SSPFMO,

The potentially affected Cooking Stoves have serial number ranges as follows:

the S31 Cooking Stoves that are in the population of the potentially defective units are **between SU02100001 – SU0210100; SU93600001 – SU93600300; and SU82200001 – SU83900100.**

the R1731 and R2131 Cooking Stoves that are in the population of the potentially defective units are **between 81897193 through 02799381.**

IF YOU OWN ONE OF THE UNITS SHOWN ABOVE AND YOU SMELL GAS, BECAUSE GAS CAN LEAK INTO THE RV THROUGH A DAMAGED STOVE VALVE, YOU MUST IMMEDIATELY SHUT THE GAS OFF AT THE RV LP TANK REGULATOR. THEREAFTER, DO NOT ATTEMPT TO USE LP GAS WITHIN THE RV UNTIL THE STOVE VALVE IS REPAIRED AND DO NOT ATTEMPT TO USE THE COOKING STOVE. OPEN ALL WINDOWS AND DOORS TO DISSIPATE GAS FUMES. REMOVE ALL IGNITION SOURCES FROM THE AREA INSIDE THE RV UNTIL ALL TRACES OF GAS SMELL ARE GONE. DO NOT ATTEMPT TO USE ANY GAS APPLIANCE IN THE RV INCLUDING THE COOKING STOVE UNTIL THE REMEDY IS INSTALLED ON YOUR S31, R1731, OR R2131 COOKING STOVE.

DO NOT ATTEMPT TO REPAIR A GAS LEAK OCCURRING WITHIN OR EMANATING FROM THESE COOKING STOVES ON YOUR OWN. ANY REPAIR OR REMEDY SHOULD BE PERFORMED BY A DOMETIC-QUALIFIED SERVICE TECHNICIAN.

How do I know if my COOKING STOVE is part of the 20E071 NHTSA Recall?

1. Find the S31, R1731, OR R2131 SERIES model number and serial numbers by locating the nameplate on the unit, underneath the cooktop, visible when the cooktop is raised. (see below)
2. If you are unsure, Call 888-943-4905 or 574-389-3713 or go to www.Dometic.com to confirm that your S31, R1731, OR R2131 SERIES COOKING STOVE is one in the population of Recalled units for Recall 20E071.

One Final Request:

Dometic Corporation appreciates your business and is committed to your safety. Before you forget, Please check to see if your S31, R1731, or R2131 cooking stove is one of the models shown here and if it is in the recall population. Follow these instructions so that you remain safe and your cooking stove gets the proper remedy installed.

In the event that you find it difficult to carry out the instructions provided, please call our Recall Line at 888-943-4905 or 574-389-3713. If you still cannot complete the remedy and are dissatisfied with our service, you can contact the National Highway Traffic Safety Administration at <https://www.safercar.gov>, or call the toll-free NHTSA Vehicle Safety Hotline at 1-888-327-4236 (TTY: 1-800-424-9153).

On a personal note:

Dometic Sincerely apologizes for any inconvenience that this may have caused. We are dedicated to developing innovative products that are safe to use and serve the needs and enhance the experience of our mobile customers. Thank you for this opportunity to serve you.

Sincerely;

Patrick N. McConnell
