Manufacturer Name :	Mercedes-Benz USA, LLC
Submission Date :	JUL 02, 2021
NHTSA Recall No. :	21V-196
Manufacturer Recall No. :	2021040012

Manufacturer Information :

Manufacturer Name :	Mercedes-Benz USA, LLC
Address :	13470 International Parkway
	Jacksonville FL 32218
Company phone :	1-877-496-3691

Vehicle Information :

Vehicle 1:	2006-2006 Merc	edes-Benz C55	AMG		
Vehicle Type :	LIGHT VEHICLE	S			
Body Style :	4-DOOR				
Power Train :	GAS				
Descriptive Information :	through product	ion records. Ve	ehicles of	rehicles. The recall populat outside of the recall popula action specifications.	
Production Dates :	DEC 12, 2005 - S	EP 14, 2006			
VIN Range 1:	Begin :	NR	End :	NR	Not sequential
Vehicle 2:	2006-2007 Merc	edes-Benz C23	0		
Vehicle Type :	LIGHT VEHICLE	S			
Body Style :	4-DOOR				
Power Train :	GAS				
Descriptive Information :	determined thro	ugh productior	n record	814 vehicles. The recall po ls. Vehicles outside of the s current production specif	recall population

Involved Components :

Component Name 1:	Sunroof
Component Description :	Sunroof (203, 211 platform)
Component Part Number :	A2117800300

Component Name 2:	Sunroof
Component Description :	Sunroof (209 platform)
Component Part Number :	A2097800200

Component Name 3 : Sunroof Component Description : Sunroof (219 platform) Component Part Number : A2197800100

Supplier Identification :

Component Manufacturer

Name : Webasto Roof & Components SE Address : Krailinger Strasse 5 Stockdorf Foreign States 82131 Country : Germany

Chronology :

In the beginning of December 2017, MBAG launched initial investigations based on isolated field reports from outside the US claiming that the sliding roof detached from the vehicle. No damage or injuries were reported as a result of these events. The sliding roofs of the affected vehicles were requested and returned by the individual markets. The returned field parts were analyzed by the supplier as well as by an external laboratory. The analysis of the supplier and outside laboratory were inconclusive. Since these analyses did not indicate a potential root cause and this type of sliding roof was already out of production, MBAG began to look for vehicles from the global used car market to carry out further investigations. By November 2018, three sliding roofs were retrieved and analyzed. From these three sliding roofs, two did not indicate any issues. While one of the sliding roof panels exhibited indications of an impaired bonding, and the others did not, it was unclear why the bonding on this particular sliding roof was less strong than the other field samples. MBAG, along with the supplier, also undertook a thorough review of the supplier's production records to determine if there were any changes made during the course of production. That review concluded in May, 2019. MBAG found that the

Page 8

supplier had changed the process of the primer application several times over the course of the full production period, including having changed the drying time for the bonding agent. MBAG then conducted testing featuring various test methods to determine whether reduction of drying time may have had an effect on bonding performance over time. MBAG additionally undertook to correlate the testing results, suggesting that there could be a diminution in bonding performance depending on the production period of sliding roofs.

Please see Chronology Supplement.

Description of Remedy :

	Description of Remedy Program :	As a precautionary measure an authorized Mercedes-Benz dealer will check the glass panel bonding on the affected vehicles and replace the sliding roof, as necessary.
		Pursuant to 49 C.F.R. § 577.11(e), MBUSA plans to provide notice about pre-notice reimbursement to owners since some of the involved vehicles would have been previously subject to the condition described.
	How Remedy Component Differs from Recalled Component :	Sliding roof with correct bonding of the glass panel.
	I I I I I I I I I I I I I I I I I I I	Sunroof Cover + Screws (203, 211 platform) -A2117800400
		Sunroof Cover + Screws (209 platform) - A2097800300
		Sunroof Cover + Screws (219 platform) -A2197800200
		Front Panel - A2107840144
		Glass Cover - A2097840044
		Left side panel - A2157801540
]		A review of the supplier's production records reveals that there were changes in its production processes that establish a clean point after September 14, 2006.

Recall Schedule :

Description of Recall Schedule :	Dealers were notified of the amendment to voluntary recall campaign on March 26, 2021. Dealers will be notified of the additional amendment to voluntary recall campaign on July 9, 2021. Owners were notified of the voluntary recall campaign approximately one week after launch to the dealers on May 07, 2021. Owners will be notified of the voluntary recall campaign approximately one week after launch to the dealers on August 24, 2021. A copy of all communications will be provided when available.
Planned Dealer Notification Date : Planned Owner Notification Date :	MAR 26, 2021 - NR
