IMPORTANT SAFETY RECALL (Remedy Notice)

**Certain 2021 Model Year Porsche 718 Spyder, Cayman GT4, Boxster GTS 4.0 and Cayman GTS 4.0 Vehicles
Engine Connecting Rods
NHTSA ID 21V-200**

Dear Mr. [REDACTED],

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act. Porsche has decided that a defect that relates to motor vehicle safety exists in certain 2021 Model Year Porsche 718 Spyder, Cayman GT4, Boxster GTS 4.0 and Cayman GTS 4.0 vehicles. Our records show that you are the current owner of a vehicle affected by this recall.

What is the issue?

On the affected vehicles, there is a possibility that connecting rods that were not manufactured according to specification are installed in your vehicle. If threaded joints on the engine connecting rods loosen over time, you may hear unusual engine noise and the oil pressure warning in the instrument cluster could illuminate. If the engine continues to be operated, severe engine damage, including potential for sudden loss of power, which increases the risk of a crash, or fire could occur.

What will Porsche do?

As a precautionary measure, Porsche is conducting a safety recall to replace the engine in your vehicle with a new engine free of charge

This is an important Safety Recall.

The remedy will take up to one business day to perform, however depending on the dealer's work schedule, it may be necessary to make your vehicle available for a longer period of time.

What should you do?

The necessary parts to complete this recall are now available. Please contact any authorized Porsche dealer to schedule an appointment to have this recall performed as soon as possible and to arrange for Porsche-provided alternate transportation, if necessary.
